I. Report to the Shareholders

1. 2023 Business Report

(1) Accomplishments in 2023

The 2023 operating income was equivalent to 82% of the plan under the original operating policy, an decrease of 19% from the previous period. The 5G, IOT, automotive, and various advanced technology industries were expected to become mature gradually with consumption increased; also, there remained room for growth in the global passive component market. The company was actively investing in expanding the production of high order components with the expectation of increasing operating income in the future, indicating that the company's current operating policy was in line with market demand.

The revenue under 2023 business plan is NTD3,100,000 thousand and net income before tax is NTD 537,770 thousand, and after actual execution, the revenue is NTD 2,553,243 thousand, and net income before tax is NTD 325,347 thousand.

(2) Budget implementation

Unit: NT\$1,000

Item	Budget	Balanced Budget	Achievement Rate (%)
Operating revenue	3,100,000	2,553,243	82%
Operating costs	(2,123,500)	(1,845,306)	87%
Gross profit	976,500	707,937	72%
Operating expenses	(418,500)	(399,343)	95%
Operating income	558,000	308,594	55%
Non-operating income	(20,230)	16,753	183%
Income before tax	537,770	325,347	60%

(3) Analysis of receipts, expenditures, and profitability

	Item	2023
Financial	Debt to asset ratio (%)	14.53
structure	Long-term capital to property, plant and equipment (%)	261.42
Solvency	Current ratio (%)	515.63
	Quick ratio (%)	338.53
	Interest coverage ratio	173.32
Profitability	Return on assets (%)	6.64
	Return on equity (%)	7.90

Ratio of income before tax to paid-in capital (%)	27.72
Profit margin (%)	10.26
Earnings per share (NT\$)	2.23

(4) Research and development work

- 1. Applied Frequency Elevated UP to 70 GHz of ARF Series (High Frequency Thin Film Resistors)
- Mass Production for New Size of 0805 for ARHV Series (High Voltage Thin Film Resistors)
- 3. Development of New Size 0612 for Long-Side Thin Film Resistors: ARW0612
- 4. Development of Long-Side Alloy Low Ohm Resistors: CSMW Series
- 5. TCR Elevated Down to 10/15 ppm of ARHV Series (High Voltage Thin Film Re sistors)
- Expansion of Ohm Value Range Below 10mΩ of CSM Series (Alloy Low Ohm Resistors)
- 7. Development of High-Precision with Low TCR Thick Film Resistors: CRTC Series
- 8. Expansion of Ohm Value Range of LRP10 (Alloy Low Ohm Resistors)
- 9. Expansion of Ohm Value Range of LRP12 (Alloy Low Ohm Resistors)
- 10.Power Rating Elevated to 1W of 1210 Size of CR..A (Automotive Thick film Resistors)
- 11.Power Rating Elevated to 1.25W of 2010 Size of CR..A (Automotive Thick film Resistors)

2. Summary of 2024 Business Plan

(1) Business policy

Current Economy:

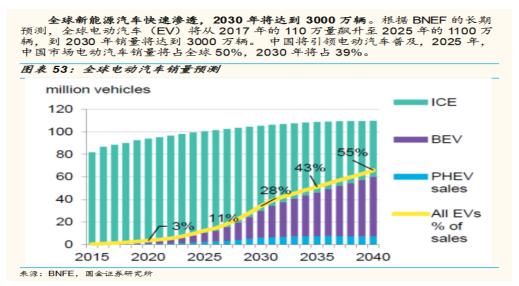

The global semiconductor industry entered the inventory adjustment period in the second half of 2022 with a healthy inventory level resumed and balanced chip supply and demand resumed. The semiconductor industry had not yet recovered from the downturn in the first half of 2023, but did slightly recover in the second half of the year; however, the specific recovery time was difficult to

grasp. The demand for end-use electronic products dropped significantly due to the outbreak of the pandemic, and worsened by the impact of the Russian-Ukrainian war, the Israeli-Palestinian war, rising inflation, the Chinese economy, soaring price of raw material and transportation, and the overall declining consumption momentum. Various end-use product manufacturers striven to stimulate sales and increase demand by promoting price reduction and specification upgrades to consumers; also, effectively reduced inventory and risk by reducing the purchase of components as well as the oversupply of materials from the supply chain.

The World Economic Outlook Report predicts that global economic growth will reach 2.9% this year, which is lower than the 3.4% achieved in the last year. According to the economic prosperity of each region, the economic growth rate of the United States in 2024 is about 1%, and interest rates will continue to rise in the future; therefore, the US dollar is a strong currency; however, excessive appreciation of the currency will affect the competitiveness of enterprises. Secondly, in terms of technology, whether it is for communication technology, industrial R&D, or information technology, the United States remains the leading market for many technologies, which will inspire enterprises to increase their investments continuously. The economy of the European Union continues to shrink due to worsening inflation; therefore, enterprises and families cut back on spending in response to the surging inflation and increasing economic uncertainty recently. Germany, the largest economy in the European Union, after experiencing a mild recession last year will inevitably experience a sluggish economy in 2024. The economy in France will continue to stall. The European Commission predicts that the economy in Eurozone will grow by 0.8% this year; mainland China after the lift of lockdown in early 2023 is striving for a V-shaped economic recovery. International corporates believe that the annual GDP growth rate of mainland China will reach 5%. Taiwan's overall economic growth model this year is moderate internally and externally. Taiwan Institute of Economic Research expects the economic growth rate to reach 3.29% in 2024.

The company focuses on thin-film component technology and special fields. The company has the market strategy changed actively and successfully in recent years after experiencing rapid market changes for years by having the ratio of special and precision products increased, and the risk of chaos caused by drastic price fluctuations of major manufacturers in the market avoided in exchange for more stable profits and a high-quality customer base. The company focuses on the European and American markets for the products of automotive, IOT, medical, new energy, industrial control, and high-end consumer electronics.

The global market penetration of new energy vehicles is accelerating from the perspective of the automotive field. The growth curve of new energy vehicles is estimated as follows:

(Figure 53 Global electric vehicle sales forecast: The penetration of alternative fuel vehicles is accelerating worldwide and it will reach 30 million cars in 2030. According to BNEF long-term forecast, global electric vehicle (EV) sales will increase dramatically from 1.1 million cars in 2017 to 11 million cars in 2025, and then to 30 million cars in 2030. China will lead the popularization of electric vehicles and the sales of electric vehicles in China will take up 50% of the global market in 2025 and then 39% in 2030.)

Secondly, in the fields of industrial control, medical care, and high-end consumer electronics, the economic trend for international electronics industry has changed, in addition to automotive, electric vehicles, and 5G, the applications of these industries are important to Viking.

(2) Market Outlook:

In prospect of 2024, in addition to facing the continuing challenges of global economic and geopolitical disturbance, there are also the crises of energy shortage, labor shortage, professional talents shortage, etc. It is a severe challenge for suppliers to ease the economic impact and to move forward continuously in a chaotic environment, of which, the GlobalSouth, including South Asia and South America, will play a key role in influencing the deployment of the supply chain.

The aforementioned global thin film resistors continue to advance in function and value due to the continuous development of electronic devices for consumption, industrial, medical, energy, automotive, and 5G applications,

resulting in the high demand for high-precision and high-stability thin film resistors gradually, that is, a potential annual growth of 4% to 5.5%. Satellite communications will play a key role in the 2024 6G communication plan. The 6G standardization plan has been launched in 2024-2025. In response to the 6G key technology breakthroughs, in addition to incorporating ultra-wideband receiver and transmitter technology, more innovative 6G and the application of new technologies will be introduced for terrestrial and non-terrestrial network integration, artificial intelligence, and machine learning.

AI applications require big computing power, which causes a significant increase in the demand for electronic components. The impact of AI application can be found in multiple fields, especially in automotive (23%) and computing (19%). In addition, AI needs to analyze big data through the Internet of Things, resulting in increasing demand for transducer/sensor products and edge computing devices. AI and other applications are ready to be used in various fields, including the field and end users of transducer/sensor.

The global power battery industry is entering the era of smart manufacturing currently, and the demand for safe and high-energy-density batteries is more prominent. However, the current mainstream power battery technology routes are approaching their limits, and the existing material system is insufficient in upgrading battery energy density and safety for the satisfaction of the market. The improvement is no longer enough to meet market demand. The battery-related technologies will soon have a breakthrough along with the accelerating investment and R&D of the major car manufacturers and battery manufacturers in the next-generation of battery technologies, of which, solid-state battery technology with higher energy density and safety has become the focus of major enterprise in research and development. The power battery industry will rapidly enter a new round of technology iteration in 2024, which will have a significant impact on the deployment of the power battery industry in the next decade.

The inventory levels of manufacturers, distributors, and customers in the passive component industry have all been low after several quarters of inventory adjustment made. As the market for standard products is recovering, and the growth trend of automotive electronics is clear, the Company continues to increase the sales of automotive products that are with higher gross profits in order to generate more profits. The sales in the first quarter of 2024 are expected to be relatively conservative while a breakthrough in sales is expected starting from the second quarter of 2024.

Thin film resistors are the main products of the Company and have been used mainly in precision instruments and equipment, medical, automotive electronics,

and advanced communication equipment, as well as in several international aerospace industries since the year of 2023. The growth of precision thin film resistors is continuing. The Company will focus on the development of thin film resistors and the development of demand with ultra-high reliability in the future in order to expand economic scale and international competitiveness continuously. The Company continues to improve the production technology of advanced and specific passive components to be used in various intermediate and advanced electronic markets, including thin-film precision resistors, current detection resistors, high-voltage, surge-resistant, anti-sulfation and MELF columnar precision resistors, new products TaN thin-film precision resistors, high-power resistors, high-frequency resistors, and high-frequency inductors. The Company's automotive, specific thick film resistors, and MELF resistors have benefited from the growing demand for advanced products. Large automotive and medical electronics manufacturers are promoting product testing and certification, which will help reinforce the Company's strength in sales. Automobile field: Due to the relatively low wages in Eastern Europe and the image of "Made in Europe," many manufacturers have factories set up in Eastern Europe in recent years. Many OEMs factories are setup in Central and South America/North Africa so to cooperate with international manufacturers to promote automotive parts businesses. Korean car manufacturers are placing purchase orders gradually; also, all well-known brands in mainland China are slowly expanding their electric vehicle business.

- 1 · Automotive: The relative low wages in Eastern Europe and the Made-in-Europe image have attracted many manufacturers to set up new factories in Eastern Europe in recent years. Central and South America/North Africa are also important areas for the original equipment manufacturing (OEM) business. Cooperate with international manufacturers to promote the automotive parts business. The purchase orders from Korean automakers are continuing to grow. All renowned brands in China are gradually expanding their store-owner automobile business.
- 2 New energy field: The new energy manufacturers in the world have achieved the targets after years of hard work; also, the top second and third manufacturers have become the valuable customers of Viking for two years so far.
 - 3 Medical and consumer electronics industry: The Company's qualified for ISO13485 certification has won the approval of the customers. In 2024 the substantial growth in the number of medical customers will continue into.

 In the prospect of 2024, while infrastructure (5G/energy) and related IOT

industries, electric vehicles, and new energy peripheral industries will be the main driving forces in the market.

The Company will enhance profitability and stay ahead in technology and competition through the following strategies: (1) Actively advance the product specifications required by the new energy market, and expand the customer base, especially in the effort of soliciting industry leaders; (2) Continue to cultivate—customers for high-end products in Europe and America, and close the product gap between Viking and well-known competitors; (3) develop customized and high margin product portfolios for existing high end customers; and (4) develop and promote micro, high-reliability precision components and high-end applications and introduce downstream key component module design. In addition to self-developed products, the Company will include the products of strategic partners in its portfolio. The Company expects to grow revenues in 2024 for the year of 2023, and will continue to improve profitability.

(3) Research and development plans for below products

- 1. Develop thin film high power resistor series.
- 2. Expand thin film 0201 resistor TCR10 specifications.
- 3. Upgrade thin film automotive resistor power (AR..A0402~1206).
- 4. Expand thin film automotive resistance (AR..A0402~1206).
- 5. Develop automotive high-temperature resistors.
- 6. Develop automotive high-power long-side resistors (0612-2W).
- 7. Develop automotive ultra-high power thick-film resistors (2512-3W, 1206-2W).

(4) Sales volume forecast

Category	Sales Volume
Precision resistor (in thousands)	5,568,000
High frequency inductor (in thousands)	437,000
General resistor (in thousands)	23,801,000
Others	477,000
Total	30,283,000

(5) Important production and sales policies

- A. Provide a full range of passive components and customer services.
- B. Promote non-3C products to manifest core technologies and market

- segmentation.
- C. Increase the proportion of high-end products and automotive grade deliveries to improve profitability.
- D.Observe the development direction of 5G, electric vehicles and automotive electronics, home appliances, and IOT, and meet the market product demand.
- 3. Future Development Strategy and the Effect of External Competition, Legal Environment, and Overall Business Environment
 - (1) Future development strategies
 - A. Develop core technologies and improve process capabilities to provide customized services.
 - B. Develop and market applications of automotive electronics.
 - C. Develop and market high-end electronic components to tap into smart applications.
 - D. Improve customer satisfaction and supplier relationships.
 - (2) Effect of external competition and overall business environment

Although the CVID-19 pandemic affects the global economy and the China-US trade war also affects global development, and also the economy in Europe and the United States have slowed down, demand for high-end and automotive grade electronic components shows a significant increase. The development of 5G, smart home appliances, and smart phones, along with the stable supply from Southeast Asia, is conducive to electronic components. Most importantly, major international manufacturers, such as Murata and Vishay, prioritize the shipments of high-end components due to high demand for high-end products, causing other manufacturers to take over demand for general products. As the Company offers not only low-end, medium-end, also high-end products, the prospect of market is quite optimistic.

The passive component industry is regarded as a mature industry; however, in recent years, application to smart phones, 5G, netcom, automotive electronics and NFC successful drive demand for passive components due to industrial shocks, business transformation, and uniqueness. At present, major passive component manufacturers are mainly from Japan, Taiwan, South Korea and China. Manufacturers from Japan have high global presence, while manufacturers from other countries base their production centers on the local market or China due to large demand in China. Due to business opportunities driven by the increasing influence of Chinese smart phone and notebook brands in the global market, demand for passive components from Chinese electronics brands is expected to be substantial.

In addition to smart phones and tablets, smart watches and smart glasses are also popular. Therefore, the Company will continuously develop RF, high voltage, high capacitance, and micro passive components.

The Company's core technology is the semiconductor thin film process. When drawing circuit patterns or planning fine wiring, the Company adopts the accurate circuit design of semiconductor technology to achieve the nanometer size of electronic circuit design, which conforms to the development trend of electronic components and is suitable for high power and small-size passive components , The future is optimistic.

(3) Effect of legal environment

The Company reviews amendments to laws and regulators' requirements on a regular basis, collects related information as planned to be prepared, and declare and disclose related information based on the time limit stipulated by the law. The company website and a stock affairs e-mail are in place for investors to access and give feedback. The Company also implements the corporate governance system in line with the government policies and will keep abreast of and comply with the future formulation and amendments of laws.

Chairman: Tsai, Kao-Ming

II. Company Profile

1. Date of Incorporation October 1, 1997

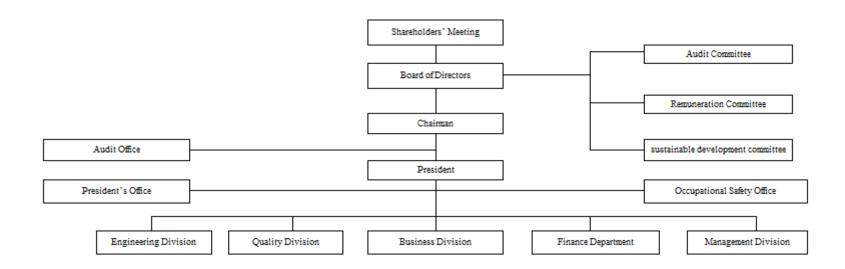

2. Brief History of the Company

Date	Milestones
October 1997	Founded in Hsinchu Industrial Park.
May 2000	Hukou Branch Office founded in Hsinchu Industrial Park in Hukou
	Township.
October 2000	ISO-9001 system certified by Entela.
April 2002	Reduced capital by NT\$319 million and increased capital by NT\$200 million
	in cash.
February 2003	QS-9000 system certified by SGS.
August 2003	Changed the product strategy to mass production of thin film, RF
	components and disposed of original silicon electronics production
	equipment.
April 2004	Reduced capital by NT\$295 million and increased capital by NT\$99 million
	in cash, and introduced domestic institutional investors.
June 2005	Headquarters relocated to the Hsinchu Industrial Park in Hukou Township.
August 2005	Hit the break-even point and made a profit every month.
August 2006	Increased capital by NT\$100 million in cash, with the premium per share at
	NT\$18, and introduced foreign institutional investors.
March 2008	Public offering approved by the Financial Supervisory Commission (FSC).
May 2008	Listed on TPEx.
December 2008	Merged Tmtec Co., Ltd.
March 2009	TS16949 certified.
March 2011	Stocks traded on TPEx.
February 2014	Increased capital by NT\$300 million in cash and paid-in capital reached NT\$1,173,408,420.
June 2015	Reelected the Board of Directors and established the Audit Committee.
July 2016	Guangdong Fenghua Advanced Technology Holding Co., Ltd. publicly
	acquired 40% of the Company's shares and became the largest shareholder.
December 2017	Passed the ISO system transition (ISO 14001:2015).
March 2018	1. Passed the ISO system transition (IATF16949:2016).
	2. Passed the ISO system transition (ISO 9001:2015).
July 2019	Pass the ISO13485:2016 certification.
December 2019	Pass the ISO/IEC 17025:2017; CNS 17025:2018 certification.
June 2022	Establish a sustainable development committee.
May 2023	Appointed a corporate governance manager.
August 2023	Established Viking Electronics (Nantong) Co., Ltd., the subsidiary in mainland China.
Septemper 2023	Established VIKING TECH EUROPE S.R.L., a subsidiary in Europe.

III. Corporate Governance Report

- 1. Organizational System
 - (1) The Company's structure

Viking Tech Corporation

(2) Business operation of each office and department

(2) Busii	ness operation of each office and department
Department	Tasks
President's Office	Make long-term business development plans,; adjust and compile annual business plans; analyze business environments and develop business strategies; collect and provide information on business management; develop overall business objectives (e.g. RBA/EICC/quality/environment policies and annual objectives); manage and implement business objectives; furnish business analysis reports; study the development of new products, price policies and selling prices; make overall construction plans for new plants; compile proposals for the Board of Directors and report their implementation; and handle other related business plans, project research plans and tasks.
Audit Office	Audit annual business plans and budgets; audit business operations of departments; audit sales, procurement, production, payroll, financing, fixed assets, investment, computers, and research and development works; provide recommendations for improvement in internal controls; and handle other internal audits; handle non-litigation civil and criminal cases, contractual terms, and related legal affairs and tasks.
Occupational Safety Office	Develop occupational safety and health regulations and training plans; prevent damage to equipment, raw materials and materials; develop countermeasures for environmental monitoring results; make health management plans; and handle environment/health/safety tasks instructed by the senior management.
Management Division	Oversee administration, procurement, information and plant affairs; plan for logistics management; plan for invested business management; make and implement annual budgets; and handle other business management tasks. Responsible for overall management: The operation of the administrative units, information units, purchasing units, and factory units.
Finance Department	Compile, execute, and control budgets; raise and deploy funds; control credit and budgets; prepare financial statements; prepare, analyze, and interpret financial structures, income change, and accounting reports; handle annual closing and earnings distribution; manage cash and bank deposits; calculate and declare taxes and other charges; store and record securities, credit vouchers, and important deeds; treat fixed asset accounts; issue, transfer, and renew stocks and create and cancel pledges; distribute dividends and bonuses; manage shareholders' equity; conduct inventory checks; and handle other financial, accounting, treasury, and stock affairs.
Quality Assurance Department	Plan for, implement, analyze, and audit the quality inspections, incoming material inspections, product inspections, and process inspections; evaluate FQC process; plan for and implement instrument and gauge management; implement or cooperate to implement quality assurance experiment plans or reliability tests; handle customer services and quality information; apply for and maintain trademarks and patent rights; organize training on quality assurance and quality inspection; compile and implement annual budgets; and handle other tasks relating to quality assurance and quality inspection.
Engineering Division	Oversee the business operations of the Manufacturing Department, the Research and Development Department, the Material Department, and the Plant Affairs Department; plan for the research and development of passive components and other products, mass production technology, and quality improvement; and handle other tasks relating to production and technology. overall management: The operation of the manufacturing unit and the research and development unit.
Business Division	Oversee the business operations of the Business Department; plan for market surveys, sales and after-sales services, customers' new requirements; and handle tasks relating to sales and markets.

proprietor, partner, director (executive),	
supervisor (supervisor), or managerial officer	
of a proprietary entity, partnership, company,	
or institution that, provides auditing services	
to the Company or the Company's associates,	
or that provides commercial, legal, financial,	
accounting or related services to the Company	
or the Company's associates for which the	
provider in the past 2 years has received	
compensation, or a spouse thereof;	
(9) Not a spouse or relatives within the second	
degree of kinship of other directors.	
(10)Not a government agency or a juristic person	
or its representative elected as stated in Article	
27 of the Company Act.	

(2) Board diversity and independence:

Board diversity:

Board diversity policy, objective, and achievement: The diversity of the board directors should be considered; therefore, an appropriate diversity strategy based on the Company's operation, business model, and development needs should be formed. In addition to basic conditions of gender, age, nationality, culture, and value, the professional knowledge and skills shall also be considered, including professional background (such as, law, accounting, industry, finance, marketing, and technology), professional skills, and industrial experience. A diverse board of directors with a variety of perspectives and insights will help improve decision-making quality and benefit the Company's shareholders and stakeholders.

The Company values the importance of the diversified professional knowledge and skills of the directors. The current Board of Directors consists of 9 directors, including 3 independent directors who have professional background and experience in different fields and positions, such as, law, financial accounting, industry, and commerce.

Board director diversity objectives and achievements:

Diversity Policies	Specific Objectives	Achievements
Professional	Should have a professional	The board directors are professionals in
knowledge, skills,	background (such as law,	the fields of law, finance and accounting,
and experience	accounting, industry, finance,	business, and operation management.
	marketing, or technology),	They have the professional ability and

	professional skills, and industry	relevant experience complying that meet
	experience.	the objectives.
Gender	Increase the ratio of female	There is one (11%) female director on
	directors.	board currently, which is an increase
		from the previous term.
Age	The average age of directors is not	The average age of directors is 54, which
	more than 65 years old.	meets the objective.
Independence	The number of directors who	There are only two directors serving as
	concurrently serve as company	the company's managerial officers
	managerial officers does not	concurrently; independent directors
	exceed one-third of the Board of	account for three-ninth of the seats and
	Directors, and the number of	they have not served for three
	independent directors is not less	consecutive terms, meeting the objective.
	than one-third of the Board of	
	Directors; also, the independent	
	directors have not served for three	
	consecutive terms.

Board independence:

There are nine directors on board currently, including three independent directors, accounted for 33%, and none of the independent directors has served for more than three consecutive terms. There is not a relative relationship among board directors as defined in Article 26-3, Paragraph 3 and Paragraph 4 of the Securities and Exchange Act; therefore, the company's Board of Directors is independent.

Note1: The 2023 earnings distribution is yet to be adopted in the shareholders' meeting. The amount shown in the table is an estimate.

Note2: The Company's board of directors resolved to have the corporate governance officer appointed on May 12, 2023.

Note3: The Company's board of directors resolved the replacement of the financial officer and accounting officer on August 4, 2023.

- D. Compare and explain the analysis of the total remuneration paid to the Company's directors, supervisors, President, and Vice President in the most recent two years by the Company and all companies included in the consolidated financial statements as a percentage of the net income in the standalone or parent-only financial reports; also, explain the remuneration policy, standard and portfolio, procedures for determining remuneration, and correlation with operating performance and future risks.
 - 1.The total remuneration paid to the directors, supervisors, President, and Vice President in the most recent two years as a percentage of the net income:

Unit: NT\$1,000

	Ratio of Total Amount to Income after Tax (%)								
Item		2023		2022					
Title	The Company	All Companies in Consolidated Financial Statements	The Company	All Companies in Consolidated Financial Statements					

Directors	10.59%	11.88%	8.74%	9.28%
Presidents and Vice Presidents	6.87%	6.86%	3.61%	3.59%

2. The remuneration policy, standard and portfolio, procedures for determining remuneration, and correlation with operating performance and future risks:

(1) The remuneration policy, standard and portfolio

Directors' remuneration includes both travel allowance and remuneration payment. The travel allowance is paid according to the directors' attending the board meeting; the directors' remuneration is for an amount equivalent to 5% of the current operating profit (net income before tax deducting the remuneration paid to employees, directors, and supervisors) as stipulated in Article 24 of the Company's Articles of Incorporation; also, taking into account the performance evaluation of the Board of Directors and their participation in the Company's operation management and corporate governance, which will then be formulated and recommended by the Remuneration Committee for the resolution of the Board of Directors and the shareholders' meeting.

Managerial officers' remuneration includes salary, bonus, and employee remuneration. Their salary is determined by referring to the general practice of the industry for the equivalent job position, as well as the scope of responsibilities, management ability, planning and execution ability, and their contribution to the Company's operating achievements. Employee remuneration is determined according to the annual profit generated and the distribution ratio stated in the Company's Articles of Incorporation, which will then be formulated and recommended by the Remuneration Committee for the resolution of the Board of Directors and the shareholders' meeting.

(2) Procedures for determining remuneration:

The Company has established a Remuneration Committee to regularly evaluate the remuneration of directors and managerial officers. A reasonable remuneration is distributed by referring to the salary level of the industry and the Company's overall business performance, as well as the personal performance, achievement rate, and contribution to the Company's performance. The relevant performance evaluation and the reasonableness of remuneration are both reviewed by the Remuneration Committee and approved by the Board of Directors; also, the remuneration system will be reviewed in a timely manner based on the actual operating conditions and relevant laws and regulations.

(3) Correlation with operating performance and future risks:

The salary of the Company's management team is determined by referring to the salary level of the industry, and considering the personal responsibility, the achievement of the goal, the job performance, the salary and remuneration paid to the staff holding the same position in recent years; also, evaluating the rationality of the correlation between personal performance and company operating performance and future risks according to the Company's achieving short-term and long-term business goals and the Company's financial status.

4. State of Implementation of Corporate Governance

(1) State of operations of the Board of Directors

A. total of seven meetings(A) of the Board of Directors were held in the most recent year (six in 23 and one in 2024). The attendance of directors is as follows:

	year (six iii 23 and 0		e attendance of	directors is as i	OHO WB.
Title	Name	Times of Attendance in Person (B)	Times of Attendance by Proxy	Attendance Rate (%) (B/A)	Remark

		24.5.4.251		(6) Internal control

4. Targets for strengthening the functions of the Board of Directors in the current year and the most recent year (e.g., establishing an Audit Committee and enhancing information transparency) and evaluation thereof:

The Board of Directors met six times in 2023, which met the requirements under the "Rules of Procedure for Board of Directors Meetings" for the Board to meet at least once a quarter. To improve information transparency, important proposals have been announced in accordance with the law on the Market Observation Post System; The Company has made the minutes of the Board meetings and internal policies public on the company website. For internal policies pertaining to corporate governance, refer to the Company's website at http://www.viking.com.tw.

To strengthen the knowledge of business operations and related laws and regulations, the Company arranges on-site training on securities laws and regulations for directors and managerial officers from time to time.

The Company has set up a sound Board governance system with enhanced supervision and management mechanisms in accordance with the "Rules of Procedure for Board of Directors Meetings." According to the "Regulations Governing the Evaluation of the Board of Directors," the result of the Board evaluation in 2023, which was graded Good (4), was reported to the 12th meeting of the 10th-term Board of Directors on March 8, 2024.

(2) The Audit Committee or State of operations of supervisors State of operations of the Audit Committee:

In the shareholders' meeting on June 25, 2015, the Company established the Audit Committee in place of supervisors. The 4nd Audit Committee was established on June 27, 2022 and composed of three independent directors; Independent Director

Shen, Po-Ting was elected as the convener of the Audit Committee. The Audit Committee shall meet at least once every quarter to supervise the following matters: (1) fair presentation of the financial statements; (2) engagement (and dismissal), independence, and performance of CPAs; (3) effective implementation of the internal control system; (4) compliance with related laws and regulations; and (5) management of the existing or potential risks. The powers of the Audit Committee are as follows:

- A. Adoption of or amendments to the internal control system pursuant to Article 14-1 of the Securities and Exchange Act.
- B. Assessment of the effectiveness of the internal control system.
- C. Adoption of or amendment to the procedures for handling financial or business activities of a material nature, such as acquisition or disposal of assets, derivatives transactions, lending of funds to others, and endorsements or guarantees for others, pursuant to Article 36-1 of the Securities and Exchange Act.
- D. Matters in which a director is an interested party.
- E. Asset transactions or derivatives transactions of a material nature.
- F. Lending of funds or provision of endorsements or guarantees of a material nature.
- G. Offering, issuance, or private placement of equity-type securities.
- H. Engagement or dismissal of CPAs or their compensation.
- I. Appointment or dismissal of financial, accounting or internal audit officers.
- J. Annual and semi-annual financial statements.
- K. Other material matters as may be required by the Company or authorities in charge.

A total of seven meetings(A)of the Audit Committee were held in the most recent year (six in 2023 and one in 2024). The attendance of independent directors is as follows:

Title	Name	Times of Attendance in Person(B)	Times of Attendance by Proxy	Attendance Rate (%) (B/A)	Remark
Independent Director	Li, Yi-Wen	7	0	100	
Independent Director	Shen, Po-Ting	7	0	100	
Independent Director	Huang, Shih-Pin	7	0	100	

- 1. Other items to be recorded:
 - If the operation of the Audit Committee is under any of the following circumstances, the date, term, proposal content, all independent directors' dissented opinions, qualified opinion, or material suggestion content, the resolution of the Audit Committee, and the Company's handling their opinions should be described:

 (1) Items listed in Article 14-5 of the Securities and Exchange Act: Refer to Pages 66~67 for the
 - (1) Items listed in Article 14-5 of the Securities and Exchange Act: Refer to Pages 66~67 for the major resolutions of the Board of Directors.
 - (2) In addition to the aforementioned items, other resolutions passed by two-thirds of all directors but yet to be approved by the Audit Committee: None.
- 2. With regard to the recusal of independent directors from voting due to conflict of interests, the name of the independent directors, the content of the proposal, reasons for abstention, and the results of voting counts shall be stated: None.
- 3. Communication between independent directors and internal audit manager, and CPAs (It should include major matters, methods and results of communication on the Company's financial and business conditions):
 - (I) The internal audit officer and independent directors communicate with one another through the board meetings, Audit Committee meetings, and seminars. The internal audit officer reports the company's internal audit performance to the independent directors at least once every quarter. Independent directors and the internal audit officer have a direct communication channel with each other, including e-mail, telephone, or meeting as needed.
 - (II) The independent auditor reports the company's financial status and internal control audit implementation to the independent directors; also, fully communicates whether there are major adjustments made to the accounting entries or legal amendments that have a significant impact on the company. The independent auditor also communicates with the Audit Committee regarding the audit plan, the plan implementation, and implementation results before and after the financial

statement audit period. Also, invites the independent auditor to present at the time of reviewing the financial report. The independent directors discuss the relevant financial and business issues in the financial report with the independent auditor and have their important opinions recorded in the meeting minutes.

(III) Communication between independent directors, internal audit officer, and CPA in 2023 has already been disclosed on the Company's website.

Communication between independent directors, internal audit officer, and CPA is summarized as follows:

I	oliows:

(4) Composition, duties, and state of operations of the Remuneration Committee

The Board of Directors has passed the Remuneration Committee Charters and established the Remuneration Committee according to the laws and regulations.

The main function of the Remuneration Committee is to assist the Board of Directors in implementing and evaluating the remuneration policy, system, standards, and structure for directors, supervisors and managerial officers and to submit its recommendations for remuneration for directors, supervisors and managerial officers for deliberation by the Board of Directors according to the Remuneration Committee Charters.

A. Information on members of the Remuneration Committee

April 30, 2024

				11pm 50, 202 i
Identity Name	Criteria	Professional qualification and experience	Independence	Number of other public companies in which the individual is concurrently serving as an independent director
Independent Director (Convener)	Huang, Shih-Pin	Possesses the work experience in legal affair, finance, accounting, and company business needed by the Company; also, is free of any matters as stated in Article 30 of the Company Act.	 The principal and the principal's spouse or relatives within the second degree do not serve as directors, supervisors, or employees of the Company or the Company's associate; The principal and the principal's spouse or relatives within the second degree do not hold more than 1% of the Company's shares or are not ranked as the top-10 natural person shareholders. 	None
Independent Director	Shen, Po-Ting	Possesses the work experience in legal affair, finance, accounting, and company business needed by the Company; also, is a certified public accountant and free of any matters as stated in Article 30 of the Company Act.	 3. Not serving as a director, supervisor, or employee of a company that has a specific relationship with the Company (in compliance with the provisions of Article 3, Paragraph 1, Subparagraphs 5-8 of the "Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies"). 4. Did not provide commerce, law, finance, and accounting services to the Company or the Company's associates with remuneration received in the last 2 years. 	None
Independent Director	Li, Yi-Wen	Possesses the work experience in legal affair, finance, accounting, and company business needed by the Company; also, is a licensed attorney and free of any matters as stated in Article 30 of the Company Act.		None

B. State of operations of the Remuneration Committee

- a. The Remuneration Committee consists of three independent directors.
- b. Term of the incumbent members: June 27, 2022~June 26, 2025. A total of four meetings(A) of the Remuneration Committee were held in the most recent year (three in 2023 and one in 2024). The qualifications for the members of the Remuneration Committee and their attendance are as follows

Title	Name	Times of Attendance in Person (B)	Times of Attendance by Proxy	Attendance Rate (%) (Note) (B/A)	Remark
-------	------	--	------------------------------------	---	--------

Convener	Huang, Shih-Pin	4	0	100	
Member	Li, Yi-Wen	4	0	100	
Member	Shen, Po-Ting	4	0	100	

Other items to be recorded:

- 1. If the Board of Directors rejects or amends the suggestions of the Remuneration Committee, the date and session of the Board meeting, contents of the proposal, and resolution of the Board of Directors as well as the Company's actions in response to the opinions of the Remuneration Committee (if remuneration approved by the Board is better than that proposed by the Remuneration Committee, for example) shall be stated: None.
- 2. Regarding resolutions of the meeting of the Remuneration Committee, if there is any written record or statement pertaining to members' objections or reservations, the date and session of the Remuneration Committee meeting, contents of the proposal, the opinion of the said member, and the actions in response to the said opinion shall be stated: None.

c. Important Resolutions of the Remuneration Committee:

Remuneration	Proposal content	Resolutions of Remuneration Committee
Committee meeting		and the Company's Handling of

meeting	proposal	present.

C. Formulation, responsibilities, and operation of the Nomination Committee: The Company does not have a Nomination Committee setup.

(5) The promotion and operation of the sustainable development and its differences from the "Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies" and the reasons:

			Operations (Note 1)	Difference from the
Item for Evaluation	Yes	No	Summary	"Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies" and the reasons
Has the company established a governance structure to promote sustainable development, and set up a dedicated (part-time) unit to promote sustainable development, which is authorized and supervised by the Board of Directors? Application	*		The company established the Sustainable Development Committee in June 2022 for enhancing corporate governance and achieving the concept of sustainable corporate management. The sustainable development policies were formulated with the approval of the Board of Directors; also, relevant policies and strategic directions were formulated with an aim at four main responsibilities, including "Operation Governance," "Sustainable Environment," "Sustainable Supply Chain," and "Employee Care and Social Participation." Moreover, a corporate sustainable management team was setup under the committee to assist in the implementation and handling of the committee's resolutions and instructions and follow-up on the implementation effectiveness regularly. The Sustainable Development Committee is authorized and supervised by the company's Board of Directors with at least two meetings held every year and regularly reporting to the Board of Directors. The Sustainable Development Committee assigns the management representatives and responsible colleagues to form a corporate sustainable management team with the aim to achieve the concept of sustainable management from the four major aspects that include operation governance, sustainable environment, sustainable supply chain, and employee care and social participation. The corporate sustainable management team holds regular meetings to report the operation to the management representative who will then report it to the Board of Directors. The Board of Directors will supervise the strategies, objectives, and implementation results proposed by the Sustainable Development Committee in order to promote the company's sustainable growth continuously. (The 2023 implementation result had been reported to the Board of Directors on December 22, 2023)	None

			Operations (Note 1)	Difference from the
Item for Evaluation		No	Summary	"Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies" and the reasons
2. Does the Company conduct risk assessments on environmental, social, or corporate governance issues related to the Company's operations in accordance with the principle of materiality and formulate relevant risk management policies or strategies?	√		The Company has a dedicated unit in charge of environmental management, which is responsible to guide relevant departments to obtain required licenses in accordance with laws and regulations. The Company has also introduced the ISO 14001 Environmental Management System to increase relevant departments' environmental awareness. The Company has introduced the ISO9001 Quality Management System, ISO 13485 Medical Devices Quality Management System, and ISO14001 Environmental Management System to control and immediately respond to operational risks in terms of the environment, customers, and suppliers. In recent years, business activities have been increasingly dependent on information. To implement information security management, the Company has formulated the "Regulations Governing Information Systems," which stipulate how the internal information security policy should be executed and followed, along with internal/external information security protections. The Company also conducts the disaster recovery drills every year to protect business operations from external factors.	None
Environmental issues (1) Does the Company establish a suitable environmental management system based on its industrial characteristics?	√		(1) The Company has obtained the ISO14001 environmental management system certification, which proves that stationary pollution sources, wastewater or sewage, and industrial waste generated from production of the Company have been managed and disposed of in accordance with the environmental laws and regulations. The Company will require the suppliers to provide a test report or a declaration of conformity for restricted and hazardous substances at the time of recognizing materials and suppliers in order to comply with international environmental protection regulations and customer requirements; also, to effectively ensure that the raw materials and substances used by the Company are in compliance with international hazardous substances environmental laws and regulations.	None

			Operations (Note 1)	Difference from the
Item for Evaluation		No	Summary	"Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies" and the reasons
(2) Is the company committed to improving energy efficiency and using recycled materials with low impact on the environment?	√		(2) The Company has entrusted qualified vendors to recycle waste. To save energy, employees are required to use electronic files in place of hard copy and energy-saving lighting as many as possible; in addition, the Company uses eco-friendly raw materials in hopes of achieve profits and environmental sustainability at the same time.	
(3) Does the company evaluate the impact of climate change on the current and future potential risks and opportunities with countermeasures adopted in response to the climate-related issues?	√		(3) The Management Division and Occupational Safety Office are responsible for environmental management. The Company has conducted the greenhouse gas inventory, taken energy conservation measures, and controlled the consumption of electricity on a regular basis to ensure the effective implementation of related policies. (4) The Company organizes labor-management meetings on a regular basis to convey policies and learn employees' opinions through open, two-way communication in hopes of maintaining harmonious labor relations.	
(4) Has the company counted statistically the greenhouse gas emissions, water consumption, and total weight of waste of the last two years, and formulated policies for energy saving and carbon reduction, greenhouse gas reduction, water consumption reduction, or other waste management policies?	✓		(4) Measures taken by the Company are as follows: GHG emissions: The Company does not fall within the industries required by the Environmental Protection Administration to conduct GHG inventories; however, the Company has conducted preliminary GHG inventories to control the source of GHG. Please refer to next page for details. The achievements and specific measures in energy saving, carbon reduction, and water conservation are detailed on the following page. Waste management: The Company sets the KPI for waste management every year and reviews progress in the quarterly KPI meeting.	

			Operations (Note 1)	Difference from the
Item for Evaluation	Yes	No	Summary	"Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies" and the reasons
4.Social issues (1)Does the Company formulate relevant management policies and procedures in accordance with related laws and regulations and international human rights conventions?	√		(1) The Company has established the Human Resources Management Policy and Work Rules in accordance with the Labor Standards Act and related laws and regulations and provided labor insurance, national health insurance, and pension for employees according to related laws and regulations. In addition, the Company has formulated the "Sexual Harassment Prevention Measures, Grievance, and Disciplinary Act" in accordance with the Sexual Harassment Prevention Act and the Gender Equality in Employment Act so to provide employees with a work and service environment	None
(2)Does the Company establish and offer proper employee benefits (including compensation, leave, and other benefits) and reflect the business performance or results in employee compensation appropriately?	√		free from sexual harassment. (2) The Company has various employee benefits and a retirement policy in line with the laws and regulations; a sound performance evaluation system as a standard for salary adjustment and bonus distribution; and employee stock options and employee bonus to strengthen cohesion among employees. With these employee benefits in place, employees are prompted to participate in business operations actively and share business results with the Company. For employees choosing to apply the new pension system, we allocate 6% of employees' monthly salaries to their personal accounts at the Bureau of Labor Insurance in accordance with the laws and regulations.	
(3) Does the Company provide a safe and healthy work environment for employees and regularly organize health and safety training for employees?	✓		(3) The Company has conducted supervision and management in accordance with relevant occupational safety and health laws and regulations, and has formulated procedures such as "Responsibility for Occupational Safety and Health Management," "Operational procedures for emergency response," "Labor safety and health education and training," etc. so to construct a risk-prevented, safe, and friendly working environment. There was one work-related injury that occurred in 2023, indicating a disability injury frequency (FR) of 12.5. According to the investigation conducted, it was a minor physical injury (a burn incident); therefore, personnel education and training were enhanced subsequently and insulation gloves must be worn in order to reduce the risk of hazards.	

			Operations (Note 1)	Difference from the
Item for Evaluation		No	Summary	"Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies" and the reasons
 (4) Does the Company establish an effective career development training program for employees? (5) Does the company follow relevant laws regulations, and international standards, and formulate relevant policies and complaint procedures for the protection of consumers' or customers' rights and interests regarding issues related to customer health and safety, customer privacy, marketing, and labelling of products and services? (6) Does the Company establish the supplier management policies requesting suppliers to comply with laws and regulations related to environmental protection, occupational safety and health or labor rights and supervise their compliance? 	√		Occupational safety and health training courses (such as labeling of hazardous chemicals and general rules, ionizing radiation protection law, etc.) were provided to 1,087 participants/times for a total 2,802 hours. A total of 9 female pregnant employees received maternal health protection in 2023. Medical staff had completed hazard identifications, risk evaluation, and work content confirmations with 6 persons/times by phone calls or face-to-face interviews with special identification armbands provided to pregnant employees in order to reduce related risks. There had no fire incident occurred as of the publication date of the 2023 annual report. (4) The Company has established the Employee Training Regulations to improve the quality and competitiveness of employees and further achieve sustainable development. Supervisors and employees may participate in training and courses organized by external training institutions as needed to improve the expertise and core competitiveness of employees and strengthen the sound training system of the Company. (5) To ensure our customers' health and safety and quality of customer service, we regularly convene the Quality Management Committee meetings, sales and production meetings, and business meetings. The Company has the "Stakeholders" session in place on the website, where contact information including telephone number, mail address, and e-mail address, is available for consumers to contact us in case of any complaints. (6) The Company has formulated relevant supplier evaluation and management regulations, requesting suppliers to cooperate closely and sign the Supplier Corporate Social Responsibility Survey (covering labor rights, health and safety, and environmental laws and regulations). We also conduct supplier evaluations on a regular basis.	
5. Does the company refer to the internationally accepted reporting standards or guidelines to prepare the sustainability reports that disclose non-financial information of the company? Has the aforementioned report received a confirmation or guarantee opinion from a third-party	✓		The Company has the report prepared by referring to the GRI Universal Standards 2021 of the Global Reporting Initiative (GRI), the structure of the "Task Force on Climate-related Financial Disclosures (TCFD)," and the structure of "Sustainability Accounting Standards Board (SASB)."	None

			Difference from the

verification unit?			The financial data in this report were audited and confirmed by PwC Taiwan and denominated in New Taiwan Dollars. The British Standards Institute (BSI) was also contracted to initiate external verification in accordance with the GRI (GRI Universal Standards 2021) with a statement of independent verification opinion issued. PwC Taiwan was contracted to perform assurance on the key performance information in accordance with ISAE 3000. The statement of independent verification opinion and assurance report are attached to the appendix of this report. The performance of social responsibilities is disclosed on the Company's website, prospectus, and annual shareholder meeting report (corporate social responsibility of the Company's website and ESG report).	

6. If a company has its own "Sustainable Development Best Practice Principles" formulated in accordance with the "Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies," please describe the operation and its difference from the "Sustainable Development Best Practice Principles" formulated:

No difference.

The Company established the Sustainable Development Committee in June 2022, and it had operated in compliance with the Company's "Sustainable Development Committee Charter" in 2023. The members of the Committee and functional groups had the Company's sustainability development task promoted effectively and implemented smoothly in accordance with the requirements of the Charter in order to ensure that the Committee operated in consistent with the Company's sustainability goals and policies.

7. Other important information that is helpful for understanding the promotion and operation of sustainable development:

The Company can evaluate the implementation of sustainable development more comprehensively by gaining understanding on the following information with the directions of correction and continuous improvement formed:

- 1. Environmental policies and goals: An enterprise's environmental policies and goals reflect its commitment to and appreciation of the environment, including the goals of reducing carbon footprint, saving energy, reducing waste, etc.
- 2. Supply chain management: The cooperative relationship between enterprises and suppliers is crucial to the promotion of sustainable development. The information on understanding how enterprises monitor and support suppliers to practice sustainable management, and how to cooperate with suppliers to achieve common sustainability goals is valuable.
- 3. Social responsibility and employee care: Corporate social responsibility and employee care are also important in promoting sustainable development, including employee training and development, participation in social welfare activities, etc.
- 4. Reporting and transparency: An enterprise's reporting and transparency level is also an important indicator in measuring its promoting sustainable development, including whether reliable sustainability reports have been published and relevant information have been announced to stakeholders regularly.
- 5. Innovation and technological development: An enterprise's innovation and technological development can also reflect its efforts in promoting sustainable

			Operations (Note 1)	Difference from the
				"Sustainable Development Best
Item for Evaluation	Yes	No	Commonwe	Practice Principles for
			NO	Summary
				Companies" and the
				reasons

development, including developing products and technologies that meet environmental requirements.

The Company also enhances understanding on and responding to the challenges of sustainable development, and improves sustainable development capabilities by regularly receiving external training on relevant issues and accepting the support and operation of the Sustainable Development Committee.

- 6. Relevant measures for energy saving and carbon reduction, water resources, and waste reduction:
- (1) Energy conservation and carbon reduction

Currently, the Company is not part of the industries designated by the Environmental Protection Administration to conduct the greenhouse gas inventory. To fulfill its corporate social responsibility, however, the Company takes the initiative to conduct the greenhouse gas inventory to control the contribution of its energy consumption to the environment and further evaluate the feasible energy conservation and carbon reduction initiatives.

The 2023 greenhouse gas emission equivalent is as follows:

Type of emission	Emission equivalent (Metric tons CO2e/year)
Category (I) emission equivalent	468.1244
Category (II) emission equivalent	14,470.7760
Total	14,938.900

Note: The scope of disclosure is Hsinchu head office and Kaohsiung branch.

The statistics on the effectiveness of power saving measures in the last three years is as follows with the power consumption disclosed:

Year	Total energy	Total revenue (NT\$	Energy
	consumption (GJ)	thousands)	intensity
2021	108,346	3,106,485	0.035
2022	104,440	3,161,885	0.033
2023	105,408	2,553,243	0.041

Note: The scope of disclosure is Hsinchu head office and Kaohsiung branch.

To control energy efficiency effectively and achieve the goal of energy conservation and carbon reduction, the Company has taken the following improvement plans:

No.	Improvement Plan	Results
1	Replace T5 lamps with T8LED lamps for	Annual electricity saving of 330,438 kWh

				Operations (Note 1)	Difference from the
	Item for Evaluation	Yes	No	Summary	"Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies" and the reasons
	a total of 1,059 units				
2	Replace constant frequency 150HP air compressor with variable frequency 150HP air compressor				
3	Replace 40HP Ice Water Pump with (IE3 40HP Ice Water Pump)			
4	Replace 40HP cooling water pump with (IE3) 40HP water pump	An	nual el	ectricity saving of 3,418 kWh	
5	Improvement of energy saving of air compressor system	An	nual el	ectricity saving of 174,000 kWh	
6	Improvement of energy saving of air conditioning ice water system	An	nual el	ectricity saving of 464,000 kWh	
7	Improvement of energy saving of cooling water tower	An	nual el	ectricity saving of 6,000 kWh	

Note: The scope of disclosure is Hsinchu head office and Kaohsiung branch.

(2) Water resources

The Company sources water from tap water and groundwater. In addition to installing water-saving facilities, the Company equips production lines with water flow meters to record water consumption and reduce waste; in addition, the Company follows the industrial park's water conservation policy by regularly reporting the water balance plan and water consumption record to the industrial park service center for review to control the use of water resources.

The annual water consumption of the plant increases and decreases along with the production capacity. In response to the water shortage problem nationwide, the company aims to reduce the water consumption per production unit. The R&D is designated to evaluate the electroplating wastewater that takes up the highest water consumption continuously and update the production process with less water consumption.

The statistics on the effectiveness of water conservation measures in the last three years and the water consumption unit are as follows:

Water consumption	2021	2022	2023
Kea unit water	0.034	0.031	0.038
consumption (tons)			

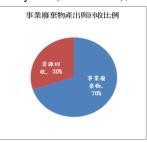

Note: The scope of disclosure is Hsinchu head office and Kaohsiung branch.

The specific water saving measures and energy saving performance are summarized in the table below:

				Operations (Note 1)	Difference from the
Item for Evaluation Yes		Yes	No	Summary	"Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies" and the reasons
No.	Specific water saving measures			Specific energy saving performance	
1	There is about 30% waste water generated d the water purification process. The said wast can be recycled and reused for toilet flushing cooling water tower replenishment, and was tower replenishment water so to reduce the consumption of tap water.	te wate g water	r	It helps save about 15,000 tons of water resources a year.	
2	The water basins in the rest room are equipp water-saving devices to reduce toilet water p and save water consumption in daily life by 9.7%.	oressure		It helps save about 327 tons of water resources a year	
3	ROR equipment recycling and RO wastewar recycling for reuse	ter		A total of 6,193 tons of RO wastewater was recycled and purified for reuse in 2023.	

(3) Waste management

Viking is committed to the recycling and reuse of industrial waste. According to the statistics of the average output and recycling of the industrial waste in the last three years $(2021\sim2023)$, the recycled resource accounted for 30% of the total industrial waste, about one third (1/3).

The statistical analysis of industrial waste outputs and recycles, including 30% resources recycle and 70% industrial waste recycle.

			_	Difference from the			
Item for Evaluation			No		Summary	"Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies" and the reasons	
Statistics items	2021	2	2022	2023			
Resource recycling output (tons)	99.1	=	106.5	80.1

Non-hazardous waste output (%)	16%	1	14%	13%			
Hazardous waste output (tons)	137.4	1	189.9	252.9			
Hazardous waste output (%)	49%	1	55%	66%			

Note: The scope of disclosure is Hsinchu head office and Kaohsiung branch.

The specific measures adopted to reduce industrial waste are described as follows:

(1) Waste recycling

Foam whiteboard erasers: After our employees' brainstorming, foam was reused to make whiteboard erasers that have a better effect than that of whiteboard erasers sold on the market.

- (2) Paperless operations
 - a.E-invoice:

Since December 2017, invoices have been replaced with electronic invoices, saving 2,300 pieces of paper (23 boxes) per year.

b. E-file archives:

To retain evidence of business tax exemption for exports for the revenue service office's audit, a written report containing 100 pages has been replaced with an e-file since May 2019 to save about 30,000 pieces of paper (6 boxes) per year.

c. Waste paper recycling:

Single-sided waste print paper is reused. The Company's Document Guide also stipulates that the blank side of print paper whose invalid side is crossed out ("X") are deemed an official record.

- 7. The achievement in promoting environmental safety and health and good deeds:
 - (1) The 6S activity within the plant General mobilization

Viking has actively promoted the 6S activity within the plant, encouraged the general mobilization of the employees, and reviewed and improved the 6S inspection tour in the plant every month.

The department of the quarter is awarded a trophy and bonus according to the cumulative evaluation score. The 6S activity helps Viking employ positive employees, secure efficient productions, and construct a safe working environment.

(2) Environmental safety and health education and training - supervisors at all levels

In order to establish an "Occupational Safety and Health Culture" for all employees, the company has arranged the "Occupational Safety and Health – Supervisor on-job education and training" regularly; also, invited occupational safety and health technicians or experts to educate the supervisors at all levels

			Operations (Note 1)	Difference from the

				Companies" and the		
				reasons		

through activities in order to enhance their safety and health knowledge, professionalism, and management.

(3) Value the importance of employees' health

a. Health checkups:

The company provides free health checkup service to employees with 1-year seniority every year that is superior to the statutory requirement. A special annual health checkup is provided to employees who are responsible for special operations lawfully. Also, introduce a health management software to efficiently screen colleagues with high-risk of health and track and care about their health.

b.Health promotion activities:

The weight loss and power walk activity "Let's exercise to lose fat and be healthy together" has attracted a total of 85 colleagues to participate enthusiastically and with a total 260 kilograms lost and accumulated 122,224,542 steps walked, which is equivalent to 97,780 kilometers in distance and a carbon emission of 21,267 kilograms reduced.

c. Handling AED/CPR education and training:

Arrange AED/CPR education and training in the factory. All departments and stations are required to send personnel for training in order to realize the "All for One and One for All with CPR" in the factory. A total of 26 employees received trainings in 2023.

d. On-site physician services:

Contract occupational physicians from National Taiwan University Hospital to station at the factory to provide employees with free health consultations and convenient and professional health services. A total of 113 persons received health consultation services in 2023.

(4) Certified friendly breastfeeding room at the workplace

(6) State of performance of ethical corporate management, any departure from the Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies, and the reason for such departure

Viking Tech Corporation

Statement on Internal Control

Date: March 8, 2024

The 2023 internal control performance of the Company, based on the results of the self-assessment, is stated as follows:

- 1. The Company is fully aware that establishing, operating, and maintaining an internal control system are the responsibility of its Board of Directors and management. The Company has established such a system aimed at providing reasonable assurance in achieving the objectives of effectiveness and efficiency of operations (including profits, performance, and safeguard of asset security), delivery of timely and reliable financial reporting, and compliance with applicable laws and regulations.
- 2. Any internal control system has its inherent limitations. However perfectly designed, an effective internal control system can only provide reasonable assurance of accomplishing the three goals mentioned above. Furthermore, the effectiveness of an internal control system may be affected by changes in environment or circumstances. Nevertheless, a self-monitoring mechanism has been built within the Company's internal control system. Therefore, whenever a deficiency or defect is identified, the Company will immediately take initiatives and action to correct it.
- 3. Based on the criteria provided in the Regulations Governing Establishment of Internal Control Systems by Public Companies (the Regulations), the Company judges the design and operating effectiveness of its internal control system. The internal control system judgment criteria adopted by the Regulations divide internal control into five elements based on the process of management control: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication, and (5) monitoring of processes. Each element further contains several items. Please refer to the Regulations for details.
- 4. The Company has evaluated the design and operating effectiveness of its internal control system according to the aforementioned criteria.
- 5. Based on the findings of the evaluation mentioned in the preceding paragraph, the Company believes that as of December 31, 2023, its internal control system (including its supervision and management of its subsidiaries) is effectively designed and operated. The internal control system also reasonably assures the achievement of objectives, which include knowledge of the degree of achievement of operational effectiveness and efficiency objectives; reliability, timing, and transparency of financial reporting; as well as compliance with applicable laws and regulations.
- 6. This statement will become a major part of the Company's annual report and prospectus, and will be made public. Any falsehood, concealment, or other illegality in the content made public will entail legal liability under Articles 20, 32, 171, and 174 of the Securities and Exchange Act.
- 7. This statement has been passed by the meeting of the Board of Directors of the Company held on March 8, 2024 where none of the nine attending directors expressed dissenting opinions, and all attending directors affirmed the content of this statement.

Viking Tech Corporation

Chairman: Tsai, Kao-Ming

President: Hu, Chuan-Ping

5. CPA's audit fee

Accounting Firm	Name of CPA	Period of Audit (yyyy/mm/dd)	Audit Fees	Non-audit Fees	Total	Remark
PwC Taiwan	Bai,Shu-Chan , Liu,Chan-Yu , etc.	2023.01.01~ 2023.12.31	3,200	980(註 1)	4,180	

Note 1: The non-audit fees include tax attestation (including review of transfer pricing report) for NT\$460 thousand, tax reduction and exemption consulting service fees under the Statute for Industrial Innovation and transfer pricing service fees for NT\$280 thousand, and sustainability report assurance for NT\$240 thousand.

- (1) Amount of Audit fees before and after the change (if the Company changes its accounting firm and audit fees paid for the year of change are lower than those for the previous year) and the reason: None.
- (2) Amount of audit fees before and after the change (if audit fees paid for the current year are lower than those for the previous year by 10% or more) and the reason: None.

Note 1: The 2023 earnings distribution proposal was resolved by the Board of Directors, but not yet resolved by the 2024 regular shareholders' meeting.

Note 2: Price-to-earnings ratio = Average closing price per share/Earnings per share.

Note 3: Price-to-dividend ratio = Average closing price per share/Cash dividends per share.

Note 4: Dividend yield = Cash dividends per share/Average closing price per share.

Note 5: As of the date of publication of the Annual Report, the financial statements for the first quarter of 2024have not been prepared. It is not applicable at the moment.

6.Dividend Policy and Its Implementation

(1) Dividend policy:

The company shall appropriate 10% of the net income, if any, as remuneration to employees and 5% as remuneration to directors and supervisors. The distribution of remuneration to employees and directors shall be resolved in the board meeting with the attendance of more than 2/3 of the board directors and the approval of the majority of the directors present; also, the resolution should be reported to the shareholders meeting. However, the company shall make up for the cumulative losses, if any.

The net income, if any, of the company should be applied to make up for the cumulative losses and to have legal reserve appropriated lawfully. However, the appropriation of the legal reserve shall be ceased when the amount of legal reserve equals the total capital stock, and the special reserve should be appropriated or reversed as needed. The balance amount, if any, together with the unappropriated earnings of the previous years, shall be distributed according to the proposal of the board of directors and the resolutions of the shareholders meeting.

The company's dividend distribution policy is with the shareholders' interests taken into account, and refers to factors such as the company's current and future investment environment, capital needs, domestic and foreign competition conditions, and capital budgets, as well as shareholders' interests and the company's long-term financial planning. The principle for the distribution of current earnings, if any, is appropriating an amount not less than 50% of the net income and distributes cash dividend for an amount not less than 20% of the total dividend distributed. The Board of Directors shall formulate dividend distribution plan lawfully every year and have it submitted to the shareholders meeting for discussion and resolution.

(2) Dividend distribution proposed in the current shareholders' meeting:

The Board of Directors resolved on March 8, 2024 to distribute cash dividends for an amount of NT\$140,809,010 to shareholders with the earnings of 2023, that is, NT\$1.2 per share. The earnings distribution proposal was resolved and approved by the majority directors present in the board meeting attended by more than two-thirds of the directors. The resolution of the Board of Directors was reported to the regular shareholders meeting lawfully.

- 7. Effect of Any Stock Dividends Distribution Proposed in the Shareholders' Meeting on Business Performance and Earnings per Share: N/A
- 8. Remuneration to employees and directors
 - (1) The percentage or range of remuneration to employees and directors stated in the Company's Articles of Incorporation:

Percentage or range of remuneration paid to employees and directors and supervisors as set forth in the Company's Articles of Incorporation:

According to Article 24-2 of the Articles of Incorporation, the Company shall distribute 10% of the profit made in a year to employees and 5% to directors and supervisors as remuneration on the premise that accumulated losses shall be made up first.

Employee remuneration may be paid in stock or cash. The employees of subordinate

companies who meet certain conditions are also entitled to receive stock or cash dividends. The so-called "profit status of the current year" in the preceding paragraph refers to the net income before tax before deducting the distribution of remuneration to employees, directors, and supervisors.

The proposal for the distribution of remuneration to employee, directors, and supervisors shall be implemented by the Board of Directors with the consent of a majority of the directors present at the meeting that is attended by more than two-thirds of the board directors.

- (2) The basis for the estimated remuneration of employees and directors in the current period, the basis for the calculation of stock dividend distributed, and the accounting treatment for the difference, if any, between the actual amount distributed and the estimated amount: Remuneration paid to employees and remuneration paid to directors and supervisors are recognized as expenses and liabilities when they are legal or constructive obligations and the amount can be reasonably estimated. If there is any discrepancy between the actual amount of distribution determined in the annual shareholders' meeting and the estimated figure, it shall be treated as a change in accounting estimates.
- (3) The distribution of remuneration approved by the Board of Directors:
 - 1.If there is difference between the amount of remuneration to employees and directors distributed in cash or stock and the estimated amount in the year of expense recognized, the amount of difference, reasons, and handling process shall be disclosed: The Company's Board of Directors discussed and approved the distribution of NT\$35,974,151 and NT\$17,987,050 as remuneration to employees and directors, respectively, on March 8, 2024. There is no difference between the aforementioned distribution amount and the booked amount.
 - 2. The amount of remuneration paid to employees with stock shares and the ratio of the said amount to the total amount of net income and total employees' remuneration in the current standalone or parent-only financial report: (4) Distribution of employee bonuses and remuneration paid to directors and supervisors from the previous year's surplus earnings: N/A
- (4) The actual distribution of remuneration to employees and directors in the prior year:

Unit: NT\$

	Amount resolved	Actual amount	Discrepancy	Amount resolved by
	by the Board of	paid		the Board of
	Directors			Directors
Directors' and	42,294,022	42,294,022	0	
Supervisors'

16.	Implementation of Capital Allocation Plans: None.

V. Overview of Business Operations

- 1. Description of Business
 - (1) Scope of business
 - A. Major lines of business

The Company mainly engages in the research and development, manufacture, and sale of the following products:

- a. Thin Film Precision Resistor
- b. Thick film Resistor Array
- c.Functional/Anti-sulfur
- D.RF Inductors, Power Inductor
- E.Thick Film/Metal Foil Current Sensing
- F. High power Resistor
- G. MELF precision Resistor
- H. ARF thin film, CSRF MELF RF resistor
- I. Automotive various Resistor
- J. Medical various Resistor

B. Weight of main products

Unit: NT\$1,000

Main Product	2023 Year Revenue	Percentage (%)
Precision Resistors	1,374,236	53.83
RF Resistors	151,993	5.95
General Resistors	979,017	38.34
Others	47,997	1.88
Total	2,553,243	100.00

- C. Current products and services
 - a. Thin film precision resistors
 - b. Thin film precision RF inductors
 - c. Thin film precision ultra-low ohmic resistors
 - d. Thin film precision resistor arrays
 - e. Automotive thin film and thick film various resistors
 - f. Ultra-high and high power thin film precision resistors
 - g. Thick film chip resistors and resistor arrays
 - h. Thick film current sensing chip resistors
 - i. Thick film anti-sulfur various resistors
 - j. Thick film chip high voltage, surge withstanding resistors
 - k. Metal foil high-power ultra-low resistance resistors
 - 1. Cylindrical high power precision resistors
 - m. High power thick film TO220/247/263 resistors

- n. RF wire wound ceramic inductors
- o. High power wire wound inductors
- p. High-end TaN thin film precision resistors
- q. Thin film precision RF resistors and MELF resistors
- r. Medical various Resistors
- s. Multilayer Ceramic Capacitor (MLCC)

D. New products planned for development

The Company focuses on expanding transactions with the existing customer base and increasing market share with improved products and specifications; in addition, the Company aims to research and develop components with special niches based on the integrated needs of emerging design industries.

The new products planned for development in the short term are as follows:

- a. High resistivity targets
- b. High humidity resistors
- c. Microwave thin film resistors (70 GHZ)
- d. CSM0402~1206 high power, low ohmic metal alloy resistors (below 10mR)
- e. Low temperature coefficient precision thick film resistor
- f. LRP 0805 low temperature coefficient metal foil resistor
- g. Development of 0805-high power alloy resistor (LRP05)
- h. Development of thick film low temperature coefficient resistor products (CRTC)
- i. Development of high-power shock-resistant thick-film resistors (PWR03/10)
- j. LRP12 resistance expansion (R001~2M50)
- k. Development of thick film ultra-low resistance chip resistor
- 1. Development of CRW62 high power (2W)
- m. Development of thick film ultra-high power 2512-3W&2010-2W
- n. Development of thick film high temperature resistance (175 degrees)
- o. Development of nickel-copper products for automobiles (CSN&CSW)

(2) Overview of the industry

A. Current status and development of the industry

Passive components play an important role in the field of electrification. Electronic components/devices are the main elements of electronic circuits and are the most rapidly developed and widely used technological products in the 20th century. Electronic components/devices are usually divided into two categories: active components and passive components. The main feature of active components is that they consume electricity and require an external power supply to work properly, for example, generally used for signal amplification, conversion, etc. The main feature of passive components is that they can work without external power supply and are

generally used for signal transmission. Active components include integrated circuits, discrete devices, etc. In terms of electrification, active components have functions like electrical control, current amplification, etc.; also, the common components include triode, MOSFETs, IGBTs, amplifiers, logic gates, etc. Passive components include two categories: RCL components and radio frequency components. RCL components include capacitors, inductors, and resistors, which are essential electronic components for electronic circuits and account for approximately 90% of the total output value of passive components, of which, capacitors are for filtering and decoupling in the circuit, inductors are for stabilizing current in the circuit, and resistors are widely used current-limiting components.

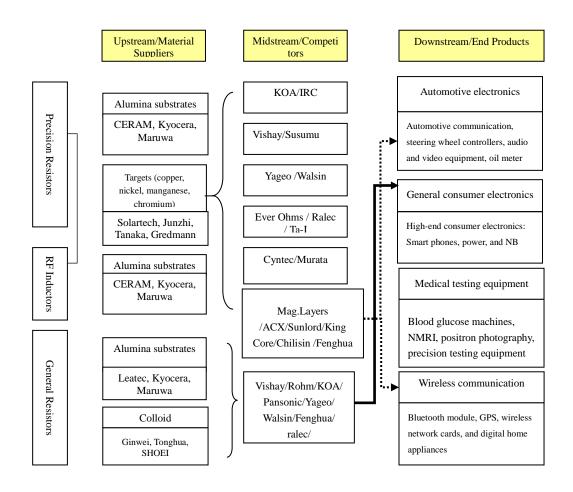

In general, the semiconductor industry has not yet recovered in the first half of 2023. The market did recover slightly in the second half of the year, and the European market was booming; however, the specific recovery time of the overall electronics market remained difficult to grasp. The market, in general, is expected to turn upward in the second half of 2024, and may be to reach the peak in 2025. The demand for end-use electronic products declined significantly previously, added with the impact of international wars, inflation and rising interest rates, economic instability in mainland China, etc., resulted in poor logistics, soaring raw material prices, and a rapid decline in overall consumption momentum. Various end-use product manufacturers strive to stimulate sales by promoting price reduction and specification upgrades to consumers; also, effectively reduce inventory by reducing the purchase of components as well as oversupply materials from the supply chain. The Company dares not to prepare too much inventory and makes purchases urgently to fulfill the orders of customers.

The communication market is the largest market for passive components. As the hardware construction of 5G technology is gradually matured, high-speed and low-latency communication quality will help connect more IoT devices. The use of 5G affects the supply of many application products and services, and realizes innovative applications other than mobile communications. The demand for advanced passive components is increasing relatively along with the increasing use of 5G. Secondly, in the fields of industrial control, medical, and advanced consumer electronics, the prosperity of international electronics industry has changed. In addition to communications, the Company mainly focuses on the fields of special new energy, industrial control, and automotive industries, grasps the movement of advanced markets, including the growth of the auto market, the demand for electric vehicles, industrial controls, and related green energy products. The functions and values of such applications have been improved constantly, resulting in the high demand for high-precision and high-stability thin film resistors gradually, that is, a potential annual growth of 4% to 5.5%.

B. Links between the upstream, midstream, and downstream segments of the industry

The company provides thin film technology for the industry. The advantage of the thin film process is the precise circuit design of semiconductor technology. When drawing circuit patterns or planning fine wiring, the Company adopts the accurate circuit design of semiconductor technology to achieve the nanometer size of electronic circuit design. By breaking through the industry's current bottleneck in the thick film process, the Company is able to develop more applications in terms of product precision and design integration. As thin film technology makes product specifications more flexible compared with thick film technology, its applications extend from general consumer electronics to wireless communications, automotive electronics, precision measuring instruments, precision medical equipment, and high-end electronic systems. The company has based on the core technology of semiconductor thin film manufacturing process and new material development, microcircuit design, and manufacturing process integration technology to engage in the production of various thin film precision components, thin film high frequency components, thick film and metal foil products. Currently, the upstream segment of the industry consists of material suppliers, including ceramic substrate, colloid, and target suppliers. These materials are widely applied to electronic components or other products as base materials. Therefore, there are also a large number of suppliers at home and abroad, so the shortage or oligopoly does not exist. In the downstream segment of the industry, precision resistors and RF inductors are widely applied to various electronic products. Given the habit of buying consumer electronics, consumers are susceptible to new preferences and trends, so the total value of products should be low. Materials that are easy to obtain, quality, and low-cost are the best choice.

The links between the upstream, midstream, and downstream segments of the industry are shown as follows:

C. Development trends of products

Precision components and high-frequency components are key electronic components and parts; also, the demand for the said product is activated by the 4C industry, 5G development, and electric vehicles, wearable equipment, smart home appliances, and medical equipment. The domestic manufacturers have also managed to expand productions for the industry of mobile phones, notebook computers, game consoles, camera lenses, LCD TVs, touch panels, digital boxes, base stations, power supplies, smart grids, servers, LED lights, digital meters, etc. The domestic electronic component industry is not only the strongest supplier, but the production center of passive components in Asia and even the world. With the growing capacity, the domestic electronic component industry has gradually secured its international status and visibility against the quality competition globally. With the rise of the high value-added, high-growth high-tech industry, domestic manufacturers have become more capable of manufacturing key components. From PC to optoelectronic communication, the competitiveness of the domestic electronics industry has gradually extended from assembly to capacity of key components. As mobile phones have embraced 5G, the Company boasts its RF thin film technology that is not easy to replace; it is also an important element of medium-end and high-end electronic products. When key components are integrated, the relative volume will be reduced

and the accuracy will be improved. Therefore, effective electronic components are of great significance.

As various digital wearables, portable health management products, and digital electric meters emerge, there is constant demand for precision and micro components, which is in line with the Company's development strategy.

In terms of the automotive electronics market, driven by the concepts of safety, comfort, environmental protection and energy conservation, artificial intelligence, and self-driving; also, consumer's demand for enjoyment and higher functions, the prevailing of electronic controls, such as a user-friendly control interface, a multi-functional car audio-visual communication platform, more safety airbags, driver support systems, steering headlights, and cruise driving, is expected. In addition, regarding the development of medical electronic products, the aging society has caused the demand for medical care and healthcare to go up. Therefore, it is expected to activate the rapid growth of the medical electronics market. Also, the user-friendly operation interface design is the direction, including easy carrying, wireless, combined with smart home appliances, etc. The future development of the electronic components industry is focusing on circuit components that meet the requirements of humanity high-tech and high precision equipped with multiple functions, and high-frequency and broadband in order to enjoy the characteristics of wireless and networking. Viking adopts thin film manufacturing processes to produce precise resistors and high-frequency inductors with the component characteristics that can compete with major international manufacturers; it also, continues to develop more diversified and unique products. Although domestic manufacturers are inevitably moving towards high-end products development for higher profits, many manufacturers have found that thin films technology is one of the best solutions to breakthrough product bottlenecks; also, it is becoming an important trend in technological development and industrial development to adopt thin film technology for the production of precision and high-frequency components. Viking is the leader in the market.

D. Competition

Precision resistors: The main competitors in this field are Vishay and KOA. In anticipation of future market conflicts and demands of the multi-polar market in the future, Viking will focus on the European and American markets with its Taiwan factory, while the Nantong factory will primarily target the Chinese mainland and Southeast Asian markets. Viking continues expanding the functionality and high specifications of products with the leading technologies and fulfills customers' needs for the development of special products, such as high-power, high-precision, high-voltage, high-frequency, high-temperature, and other special products to meet customer needs.

High-frequency resistors: Viking has developed chip-type thin-film high-frequency resistors and MELF columnar high-frequency resistors in response to the requirements for more applications and new market demands as the arrival of 5G generation.

High-frequency inductors: Murata is the main supplier in the thin-film ceramic inductor market. Viking is constantly updating technology in order to keep up with high-current high-Q products. In addition, the miniaturized size 01005 is also undergoing mass production in order to seize market opportunities. There are many suppliers in the coil ceramic inductor market, namely Coilcraft and Murata. Viking meets the market demand with high yield and low cost.

MELF Precision Resistor: Vishay is the largest supplier in the market with precision various resistors and professional resistors offered at a very competitive price and delivery lead time. However, along with the substantial market growth, Viking R&D and innovation is catching up with Vishay's various specifications; also, is developing professional automotive materials in order to become the alternative supplier of Vishay with the company's high quality, low cost, and fast delivery lead time offered. Therefore, the company is enjoying fast growth in sales with the production capacity expanded rapidly.

(3) Overview of technologies and research and development works

A. Technologies

The Company's core technology is the semiconductor thin film process. With a focus on thin film technology, the Company manufacturers high-precision, low-temperature coefficient, and high-power precision resistors and high-precision, flat, and high-power RF inductors. The Company has strived to develop thin film and thick film technology and use silicon chips and high-density ceramic substrates to integrate thin film and thick film processes, so as to meet the requirements of high-end electronic components, including miniaturization, RF, high power density, high precision, and low temperature coefficient. Main technologies are described as follows:

a. Wire simulation: In the early stage of development, electrical simulation software is used as aid in the structure electrical simulation. With many years of experience in product development, the Company is able to shorten the time for development and narrow the difference.

b. Lithography

Circuits are formed on the substrate. For circuits with higher complexity, deeper integration, and more functional requirements, lithography is used in the manufacturing process; in addition, laser direct imaging technology is introduced to reduce the cost of masks and increase the flexibility, capacity, and quality of production.

c. Material research and development

As a professional resistor manufacturer, the Company is familiar with the materials used. The material analyzers and developers take advantage their expertise to source and constantly test materials and develop usable key components of resistors in collaboration with material suppliers.

The new electronic products are constantly launched (the market demand for electric vehicles, 5G hardware, precision meters, etc. is increasing annually) along with the constant development of science and technology and the fast function upgrade of electronic products. The emerging market is growing, and the components developed with thin film processes or thick film processes alone can no longer meet the customer's needs for special applications. As Taiwan's first passive component manufacturer to have thin film technology, thick film, technology and automated precision wire wound technology, the Company has integrated the mature thin film and thick film processes into the development of feature-oriented high-end products in order to keep up with international major manufacturers, including Vishay, KOA, and Murata and become one of the few suppliers that are capable of offering high-end products in Taiwan.

B. Research and development works

The research and development team of the Company fully controls the characteristics of metal thin film conductors and the cost advantage of thick film technology and prepares key materials and processes and substrate applications to develop products with different characteristics and diversified design services. With three core capacities, namely material engineering, thin film process, and thick film process, the Company has strived to develop products with special niches and become the leader in Taiwan's high-end passive component market. Currently, the Research and Development Department engages in product development through division of labor.

Based on the advanced product quality planning (APQP) under IATF 16949, the Company has built the same communication platform to simplify the complexity and channels of communication in quality planning. Currently, the research and development cycle of new products is 6~8 months. To shorten the research and development cycle, the Company will acquire professional technologies and engage external consultants or participate in industry-academia programs.

C. Research and development expenditures in the most recent year up to the date of publication of the Annual Report

Unit: NT\$1,000

Year	Amount
2023	68,833
As of March 31, 2024	N/A

Note: The 2024Q1 financial information audited by the independent auditor was not available as of the annual report publication date.

D. Technologies or products successfully developed in the most recent year up to the date of publication of the Annual Report

1	1
Year	Specific Results of Research and Development
	Successfully developed ARW0612 long-side thin-film resistor
	Successfully developed CSMW long-side foil resistor
2023	Successfully developed ARHV TCR10/15 specification expansion
2023	Successfully developed CSM foil products with below $10m\Omega$ resistance
	expansion
	Successfully developed CRTC high-precision Low-TCR thick-film resistors
	Successfully developed AR general product AEC Q200 reliability specification
	expansion
2024	Successfully developed ARA automotive power/resistance specifications
	upgrade
	Successfully developed CSM foil products automotive expansion
	Successfully developed CRTC high-precision Low-TCR thick-film resistors

- (4) Long-term and short-term business development plans
 - A. Short-term business development plans
 - a. Support local sales with in-depth operations, and respond to the increasing demand of emerging markets and new applications, especially for high-end automotive, medical, and industrial a
 - b. Introduce other products to existing customers and other units
 - c. Promote products with higher gross profits and improve the safety level
 - d. Continue to develop high-end products with smaller micro components, high-power and low-impedance metallization, high-precision, anti-sulfurization, and high-reliability features to maintain a competitive advantage in the niche market
 - e. Participate in important exhibitions and advertising media in Taiwan and abroad actively to expand the business, enhance e-marketing, and actively visit customers after the pandemic period.
 - f. Enhance e-marketing and use of suggested materials in order to become one of the global top ten manufacturers being searched online, and guide customers to select materials correctly and enhance information flow.
 - g. Expand the capacity of thin film products with higher gross profits based on the market need to increase sales
 - B. Long-term business development plans
 - a. Develop key component module design based on the existing brand image
 - b. Reduce costs and improve product specifications to improve competitiveness
 - c. Develop multiple core technologies to shorten the research and development cycle and reduce the risk of life cycle
 - d. Conduct market research and develop products that meet the market need with customers
 - e. Introduce the design of Viking Tech America Corporation and agents in Europe and Asia to major brands to lay the foundation for long-term sustainable development
 - f. Increase exposure of the Company's brand image via the Internet and media
 - g. Continue to focus on the market of automotive, medical, and special industrial

applications in order to become irreplaceable and generate high profits.

2. Analysis of Market and Production and Marketing Situation

(1) Market analysis

A. Geographic areas of main products

Unit: NT\$1,000

Year		20	22	2023		
Geographic A	Area	Sales	%	Sales	%	
Dome	stic Sales	496,791	15.71	390,225	15.28	
	USA	295,082	9.33	209,955	8.22	
	Hong Kong	541,685	17.13	298,911	11.71	
Evnort	China	1,000,097	31.63	823,775	32.26	
Export	South Korea	115,942	3.67	187,584	7.35	
	Germany	179,550	5.68	209,132	8.19	
	Others	532,738	16.85	433,661	16.99	
Total		3,161,885	100.00	2,553,243	100.00	

Source: Consolidated financial statements audited by the CPAs.

The company's main products include three categories, that are, precision resistors, high-frequency inductors, and general resistors. Domestic sales and export sales account for about 20% and 80% of the overall operating income, respectively. The company's sales to the Chinese market continues to grow significantly by 30-40% due to the rapid emerging of the Chinese market and the gradual transfer of electronic OEM business from European and American to mainland China. The company will continue to expand the Chinese market in the future, grow the European market, and develop new markets in order to realize the objective of balanced regional development.

B. Market share

Major manufacturers of high-end passive components are mainly foreign manufacturers such as Vishay, KOA, and Murata that all have been in business for decades. The company has started the production of high-end passive components since the year of 2002. Viking's operating income has grown year by year, and the market demand is climbing constantly. However, there remains room for the production of high-end passive components to grow along with the rapid changes in technology. The thin-film precision resistors take up about 12% market share with the biggest competitor, Vishay, to compete with.

C. Future supply and demand conditions and market's growth potential

The overall market demand is expected to grow continuously in 2024 due to the increasing demand for medical care, energy storage, 5G, electric vehicles, and industrial control. The market movement direction will remain on the course. The demand for electronics in global digital economy, electric vehicles, energy, and other markets remains positive. The passive components needed for automotive

applications are optimistic as long as the IC supply is maintained smoothly. Since the market situation remains optimistic, the continuing effort in developing high-end products in the future will help significantly increase the demand for passive components in the fields of medical care, energy storage, 5G, electric vehicles, industrial control, and renewable energy, boosting the market again. In addition, the Company's products have successfully entered the advanced application field of aerospace and have received purchase orders from many aerospace customers with the expectation of generating more sales.

D. Competitive niches

a. Core technology

The Company boasts its thin film technology. With years of experience in research and development and a research and development team specializing in materials, chemicals, machinery, electronics and electric machinery, the Company is capable of developing key materials and processes and applications based on the needs of customers and providing diversified professional services.

b. High-end products, not susceptible to industry conditions

The Company manufactures high-end passive components that are applied to consumer electronics, medical electronics, measuring instruments, and automotive electronics. Due to the high-end nature and wide applications, the high-end passive components are not susceptible to fluctuations in a single industry.

c. Flexible delivery and stable quality

The delivery lead time of passive components is prolonging. Viking has a more efficient production capacity and a more flexible production strategy than major international manufacturers. The company provides the best support to long-term important customers with production expanded. The company is able to provide thin film products much faster than other suppliers. The company has also upheld the spirit of high quality requirements and customer service to strictly control product quality, and take advantage of short delivery lead time and excellent quality to help customers cope with the fast industry changes and to jointly create market opportunities.

d. Good customer relationships and a sound sales network

Since its foundation, the Company has strived to maintain a good customer relationship in addition to investing in research and development. After years of hard work, the Company has built a solid customer base. The Company is able to provide a diversity of products and technical support for customers immediately, which strengthens the long-term cooperation with customers; moreover, the Company has expanded the market in China through overseas subsidiaries and built a sound sales network with local distributors to increase

the Company's visibility and market share.

e. Professional management

The Company's management has served in the industry for many years. With a wealth of industry knowledge and experience in business management, the management can control the market trends quickly and provide professional services for customers immediately, which considerably benefits the marketing of existing products, development of new products, and sustainable development of the Company.

E. Positive and negative factors for future development and response measures

a. Positive factors

i. Rapid growth of demand in China

Due to the rapid economic development of the Chinese market in recent years, the emergence of 5G, and the red supply chain policy, the demand for various high-end products and the digitization of various electric meters introduced through the government's vigorous promotion and financial support is increasing rapidly compared with other regions. In addition, the auto market has become an eye-catching global market; also, it is a major driving force for the growth of the global consumer electronics and related components industries. The company has been deeply involved in the Chinese market for years with a solid cooperative relationship established with local customers..

In addition, the Company has started to receive results of market expansion in East Europe, Russia, South Korea, and South America on a large scale. The global visibility has also increased significantly. The balanced development and growth of demand in each region around the world will be one of the positive factors for the future development of the Company.

ii. Wide applications of products

The company's special products can be easily promoted to the supply chain of automotive electronics, medical equipment, electronic testing instruments, smart home appliances, industrial computers and smart machine tools, digital electric meters, etc. without being easily affected by the depression, and with risks dispersed relatively.

iii. Increasing demand for other high-end passive components

The Company develops high-end resistors and high power resistors at the same time and increases the percentage of automotive grade products. To provide full support for customers, the Company also provides other passive components that Fenghua, the parent company of the Company, manufactures.

iv. Development of Viking-branded products

After years of hard work, the Company has built its own brand and stood out in the high-end passive component market. With production technology, the Company provides services for customers as an OEM. To meet the customers' needs and expand the market, the Company aims to provide both Viking-branded products and OEM products and technical support for customers.

v. Stable quality and good customer services

The production of the company's main product, precision resistors, is based on the company's unique thin-film process technology, the same quality level as international state-of-art brands. The company bases on the company's efficient production capacity and flexible production strategy is able to shorten the lead time for the delivery of thin-film products. The company has won the recognition of customers with stable quality and good service.

b. Negative factors and response measures

i. The company's products are mainly high-end electronic components, which are high-margin products. Therefore, other companies in the industry strive to enter this market for competition.

Response measures:

The Company continued to improve the quality and functionality of products, develop new products and expand production lines based on the customers' needs, and shorten the research and development cycle to increase the barriers to entry and secure its leadership in the market.

ii. The supply of key raw materials (such as substrates) is concentrated in a few foreign manufacturers.

Response measures:

The company maintains a good cooperative relationship with the suppliers, and is actively searching for alternative sources of materials. Also, the company tests and develops raw materials in-house to avoid increasing the risk of operation due to the concentration of purchases from exclusive manufacturer.

iii. The company's brand is not yet well known worldwide. Although the company has successively cooperated with well-known domestic and foreign manufacturers, there remains room for improvement.

Response measures:

In addition to actively participating in the exhibition to make the company's name known, the company will continue to expand product sales channels starting with the IC design to attract other manufacturers with

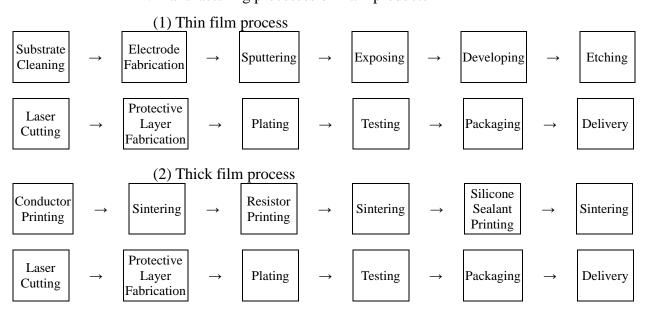

high-quality, high-efficiency, and word-of-mouth in order to achieve the objectives of building up the company's name and expanding sales performance.

(2) Usage and manufacturing processes of main products

A. Usage of main products

Main Product	Features/Usage				
Waiii I Toduct	Medical equipment, measuring instruments, automotive control				
Precision resistors	panels, computer control panels, and power converters.				
	Power equipment, such as medical power supply, electronic				
Power resistors	deceleration systems, uninterruptible power systems, RF amplifiers,				
1 ower resistors	and fuel cells.				
MELF metal film	Medical equipment, measuring instruments, automotive and				
cylindrical resistors	industrial control panels.				
High voltage registers	Precision instruments, measuring instruments, wired and wireless				
High voltage resistors	communication network equipment.				
General resistors	3C products or low-end electronics.				
Current sensing resistors	Notebook computers, motherboards, charger control panels, and				
Current sensing resistors	power supply.				
	Information, communication and consumer electronics, such as				
RF resistors	mobile phones, Bluetooth modules, wireless network cards, GPS				
	and other RF wireless communication products.				
Power inductors	Notebook computers, LCD screens, power supply, and electrical				
1 ower muuctors	and electronic control panels.				
Chip/array/high	Information, communication and consumer electronics, such as				
voltage/high power	mobile phones, notebook computers, LCD screens and other				
resistors	electronics.				
Anti-sulfur resistors	Automotive and industrial equipment.				

B. Manufacturing processes of main products

(3) Supply situation of main raw materials

The main raw materials for the production of passive components are substrates, ceramic rods, iron caps, conductive adhesives, resistive adhesives, inks, and alloy materials. Most of the raw materials are imported from Europe, America, and Japan. The company has increased the purchase of raw materials from domestic manufacturers recently for the sake of cost control, stable delivery lead time, and enhancing the supply chain.

(4) Any suppliers and customers accounting for 10% or more of the Company's total procurement (sales) amount in the most recent two years, the amount, and the percentage of total procurement (sales)

A. Any suppliers accounting for 10% or more of the Company's total procurement amount in the most recent two years and reasons for changes:

Unit: NT\$1,000

			2022				2023		As of the last quarter before 2024			
Item	Supplier	Amount	Percentage of Total Procurement (%)	Relationship with Issuer	Supplier	Amount	Percentage of Total Procurement (%)	Relationship with Issuer	Supplier	Amount	Percentage of Total Procurement (%)	Relationship with Issuer
1	Lizhi Electronic Co., Ltd.	98,807	9.72	None	A.	96,680	11.75	None				
2	A	77,094	7.58	None	Lizhi Electronic Co., Ltd	84,025	10.21	None			N/A	
	Others	840,524	82.70	None	Others	641,873	78.04	None				
	Net purchase	1,016,425	100.00		Net purchase	822,578	100.00					

Note: The 2024Q1 financial information audited by the independent auditor was not available as of the annual report publication date.

B. Any customers accounting for 10% or more of the Company's total sales amount in the most recent two years and reasons for changes:

Unit: NT\$1,000

	2022				2023				As of the last quarter before 2024			
Ι	Customer	Amount	Percentage of Net Sales (%)	Relationship with Issuer	Customer	Amount	Percentage of Net Sales (%)	Relationship with Issuer	Customer	Amount	Percentag e of Net Sales (%)	Relationship with Issuer
1	Others	3,161,885	100.00	None	Others	2,553,243	100.00	None				
	Net sales	3,161,885	100.00	None	Net sales	2,553,243	100.00	None	N/A			

Note: The 2024Q1 financial information audited by the independent auditor was not available as of the annual report publication date.

(5) Production volume and value for the most recent years

Unit: NT\$1,000; 1,000 units

Year		2022		2023			
Production Volume/Value Main Product	Capacity	Volume	Value	Capacity	Volume	Value	
Precision resistors	6,460,000	5,730,340	967,203	6,460,000	4,799,602	896,719	
RF inductors	412,500	76,117	34,180	412,500	122,329	44,691	
General resistors	25,820,000	16,319,769	641,342	25,820,000	18,428,389	615,453	
Total	32,692,500	22,126,226	1,642,725	32,692,500	23,350,320	1,556,863	

(6) Sales volume and value for the most recent years

Unit: NT\$1,000; 1,000 units

Year		20	22		2023				
Sales Volume	Domes	tic Sales	Exp	ort	Domestic	Sales	Export		
and Value Main Product	Volume	Value	Volume	Value	Volume	Value	Volume	Value	
Precision resistors	796,365	338,964	5,288,563	1,373,896	650,186	300,460	4,176,552	1,073,776	
RF inductors	41,397	15,203	420,321	175,587	64,299	19,844	341,305	132,149	
General resistors	918,767	133,159	19,377,372	1,065,219	572,184	66,959	20,430,427	912,058	
Others	56,869	9,465	379,357	50,392	13,630	2,962	428,001	45,035	
Total	1,813,398	496,791	25,465,613	2,665,094	1,300,299	390,225	25,376,285	2,163,018	

3. Number of Employees Employed for the Most Recent Two Years, and During the Current Year up to the Date of Publication of the Annual Report, Their Average Years of Service, Average Age, and Education Levels

	Year	2022	2023	As of March 31, 2024
	Managerial officers	34	35	35
Number of	General employees	342	349	335
employees	Director labor	508	531	523
	Total	884	915	893
Ave	erage Age(Age)	37.45	37.94	38.11

Year		2022	2023	As of March 31, 2024
Average Years of Service(Year)		5.88	6.40	6.65
	Ph.D.	0	0.11	0
	Master's degree	4.19	5.14	4.37
Education	Bachelor's degree	50.56	50.70	50.95
(%)	Senior high school	39.59	38.69	39.53
	Below senior high school	5.66	5.36	5.15

4. Disbursements for Environmental Protection

Total losses (including damage awards) and fines for environmental pollution for the most recent years up to the date of publication of the Annual Report, response measures (including corrective measures), and possible disbursements in the future (including an estimate of losses, fines, and compensation resulting from any failure to adopt response measures): None.

5. Labor Relations

(1) Any employee benefit plans, continuing education and training, retirement systems, and their implementation, labor-management agreements, and measures for preserving employees' rights and interests:

A. Employee benefit plans

From the on-boarding date, employees are eligible to labor insurance and national health insurance. The Company also purchases group insurance, covering regular life insurance, illness insurance, injury insurance, aviation accident insurance, medical insurance, inpatient insurance, and cancer insurance, to protect the rights and interests of employees; in addition, the performance evaluation method is in place as the standard for salary adjustments and bonuses.

The Company also provides employee share subscription warrants and employee compensation to encourage employees to contribute to and share the business operations of the Company. Other benefits are listed as follows:

- 1. The Company created a friendly working environment by providing care and encouragement for the disabled and female employees and establishing an online micro library.
- 2.Group insurance for employees' children was subsidized by the Company in full. A total of 245 households benefited in 2023.
- 3.Our breastfeeding rooms were certified as user-friendly. We will continue to optimize the workplace.
- 4.In order to satisfy the healthy living of employees and invest in the health of employees, the company provided a subsidy program for employees to participate in sports to lead employees to resist stress, relieve stress, and improve personal health management.
- 5. Viking in the effort of fulfilling corporate social responsibilities purchased gifts from charity groups for celebrating the "Good Year of the Rabbit, Mercy and Charity," "Dragon Boat Festival Sharing Delicious Rice Dumplings with Disable Individuals

for Support," "Share love and warmth; reunion in the Mid-Autumn Festival to share love," "Pay Forward Sharing Christmas Spirit" that warmed the hearts of colleagues, extended "pay forward" with colleagues, and carried out charity act together.

- 6. Awarded with the "Gold Medal" for technology research and development in the "2023 Happy Enterprise Voting" of 1111 Happy Enterprises.
- 7. Arranged activities such as "Let's Pay Forward on Mother's Day" and "Dragon Boat Festival Standing Eggs Good Fortune" to invigorate employee relations and experience the festive atmosphere.

B. Continuing education and training

The Company has established the training regulations to improve the quality and competitiveness of employees and achieve the corporate sustainable development. Supervisors and employees may participate in training and courses organized by external training institutions as needed to improve the expertise and core competitiveness of employees and strengthen the sound training system of the Company.

In 2023, the results of training are as follows:

Training Item	Number of Courses	Number of Trainees	Training Hours
Internal training- general education	28	453	1193
Internal training-professional training	6	152	304
Internal training-skill training	231	3,505	3839.5
External general education	14	16	116.5
External training-management	3	14	140
External training- professional training	3	20	213
External training-skill training	10	13	178
Law and regulation training	54	635	4021.5
Competence examination	191	3,386	4563
Total	540	8,194	14568.5

C. Retirement systems

The government-led defined contribution plans apply to the Labor Pension Act. The Company contributes 6% of every employee's monthly salary to the employee's personal account at the Bureau of Labor Insurance. Regarding the years of service before 2005, the Company has paid employees a pension of two months a year in advance based on the Labor Standards Act.

D. Labor-management agreements and measures for preserving employees' rights and interests

Labor relations have always been the top priority of the Company. The Company organizes labor-management meetings on a regular basis to convey internal policies and understand employees' opinions through two-way open communication. The

Company has also established the Employee Welfare Committee to distribute bonuses and allowances, including three Chinese festival bonuses and allowances for weddings, funerals, illness, and childbirth, to take care of employees' life. Since 2005, the Company has organized domestic or overseas trips to strengthen interaction and cohesion among employees and their family members.

The Company has maintained harmonious labor relations by organizing labor-management meetings on a regular basis to convey internal policies and work environment issues with employees. The Company has also established the Employee Welfare Committee to be in charge of handling employee benefits and organizing activities from time to time to strengthen interaction and cohesion among employees. The Company always values employee benefits and maintains harmonious labor relations.

The Company has maintained labor relations through people-oriented management and two-way communication and established related systems according to the Labor Standards Act to ensure the rights and interests of employees. Therefore, the labor relations are harmonious. There has been no labor dispute.

E. Promotion of social responsibility

The Company has implemented its social responsibility and engaged employees in the following CSR activities:

a.Blood donation:

The Company has encouraged employees to donate blood. There were 14 people-time blood donations made in 2023 and with a total of 102people-time accumulated.

b.Computer donation:

Respond to the "Recycled Computer • Hope Project" held by ASUS Foundation in 2023 with a total of 39 computers and laptops donated to help disadvantaged children in order to provide them with digital learning opportunities and to help them improve digital capabilities.

c. Support the 2023 National High School Games

The "National High School Games" is the highest-level national comprehensive sports tournament of national junior high school and secondary school students in Taiwan. The 2023 National High School Games was a great event held in Hsinchu County. The Company had participated in the event to support local activities and to help promote sports, and we spare no effort in providing sponsorship, jointly improving the quality of the event, and creating a win-win situation with local residents.

d.Donation of firefighting equipment:

We regularly sponsor local Shin-Gong Fire Station every year to provide the strongest support to firefighters. We hope to do our best to help improve disaster prevention resources and to protect the safety of local communities jointly. The company, for commemorating the courageous act of the fire brigade, donated NT\$20,000 for the purchase of various instruments and equipment that benefited 60 individuals in 2023.

e. Good Year of the Rabbit, with Mercy and Charity

Good Year of the Rabbit, Mercy and Charity, distribute the handicrafts of charity groups as a token to share the warmest New Year blessings. Beneficiary groups this time:

• Chensenmei Social Welfare Foundation (Taoyuan City)

- Children Are Us Foundation
- Kaohsiung City Epilepsy Association
- f. Remote health promotion philanthropic projects for the healthcare of the elderly in rural areas jointly

Cooperated with the Digital Humanitarian Association in 2023 to promote charity and care for elderly in rural areas, and to sponsor the remote health promotion philanthropic projects for the elderly in the rural areas with a total of 5,787 persons/times served in the senior communities of Miaoli Swasiq and Kaohsiung Taoyuan Fuxing UAASIK.

Services include:

- 1. Conduct health surveys to understand the health status of the senior citizens in the community.
- 2. Arrange personalized remote online theme courses in the community.
- 3. Provide one-on-one expert consultation for the needs of the senior citizens.

The mission is to provide the elderly in the rural area with long-term care and healthcare through this project, and provide them with the correct health knowledge and exercise opportunities in order to enhance their health functions and health awareness, and to achieve the purpose of disease prevention.

g. Dragon Boat Festival Sharing Delicious Rice Dumplings with Disable Individuals for Support

All factories of the Company purchased gifts from charity groups to celebrate the Dragon Boat Festival in 2023. Various gifts were selected to increase the variety of gifts for the occasion. Created job opportunities for people with disabilities through joint effort, and gave full blessings and wishes to all colleagues in the factory to celebrate a wonderful holiday.

Beneficiary groups this time:

- Down Syndrome Foundation R.O.C.
- Children Are Us Foundation
- Taiwan Foundation for the Blind
- Taichung City Welfare for The Disabled Association
- h. Awarded with the 2023 Green Enterprise Label

Viking was awarded with the "2023 Green Enterprise Label" by the Organic Living Environment Education and Promotion Association of the Republic of China and will continue to promote environmental protection education and contribute to environmental protection.

i. Charity donation

Viking has been making charitable donations to less privileged groups continuously for the promotion of public welfare and society stability.

Make donations to Huashan Social Welfare Foundation for the care and service of the less privileged elders, which is a joint effort with Huashan Social Welfare Foundation.

Make donations to the Home so to provide a Holistic Health Care (physical, emotional, social, intellectual, and spiritual well-being) to the residents. Viking is second to none in paying forward and in providing a friendly Home environment for the elders.

j. Share love and warmth; reunion in the Mid-Autumn Festival to share love

Selected charity merchandise with care for celebrating the Dragon Boat Festival and Mid-Autumn Festival in 2023. The rich gift combination is how Viking sharing love with those who are in need and how Viking is committed to supporting the handicapped people.

Beneficiary groups this time:

- JOYWELL CAKE STORE CO., LTD.
- Social Affairs Bureau of Kaohsiung City Government
- Kaohsiung City Epilepsy Association
- Taiwan Foundation for the Blind
- Down Syndrome Foundation R.O.C.

k. Pay Forward Sharing Christmas Spirit

The Company purchased gift boxes from charity groups on the Christmas Eve specially to celebrate the holidays. In addition to thanking colleagues for the hard work throughout the year, the Company also shared fullhearted love and happiness in the holiday seasons.

Beneficiary groups this time:

- Syin-Lu Social Welfare Foundation
- Taiwan Foundation for the Blind

F. Protective measures for the work environment and personal safety

- a. The Company has monitored and managed occupational safety and health in accordance with the occupational safety and health regulations and distributed safety and health guidelines to employees to ask for their compliance.
- b. The Company has established a safety and health management unit (Occupational Safety Office) and assigned the safety and health managers and nurses in the headquarters and Kaohsiung Branch to be in charge of planning, implementing, and supervising occupational safety and health according to the laws. The Company has also established the Occupational Safety and Health Committee. The Occupational Safety Office is responsible to convene the Occupational Safety and Health Committee every quarter to deliberate, coordinate, and comment on safety and health related matters and document the said matters.

The Company has conducted the safety and health inspections and engaged specialists in occupational diseases to evaluate and review the employees' health examination reports on-site and give advice or health education as appropriate.

c. Facility safety

- i. Production equipment is posted with warnings and equipped with safety protection facilities, such as emergency stop devices and alarms. The Company makes the automatic inspection plan every year according to the laws and regulations, and the automatic inspection is conducted by each responsible department. The inspection should cover inspection items and cycles, and related records should be retained for 3 years.
- ii. The chemical warehouse is equipped with gas detectors to prevent leakage.
- iii. Hazardous machines (such as lifts) are maintained every month and inspected every year on a regular basis.

iv. When entering into construction contracts with contractors, the Company always notifies contractors of instructions on safety and environmental protection in writing.

d. Work environment monitoring

- Local exhaust facilities are installed in the workplace where process waste gas is generated, and the hazard factors are discharged to air pollution control equipment.
- ii. The Company engages qualified monitoring institutions to conduct the environment monitoring on a regular basis (every year for lead and every six months for other substances), including organic solvents, specific chemicals, noise, and carbon dioxide as well as items required by the laws and regulations.
- iii. The Company engages vendors to maintain drinking water every month and engages qualified laboratories to test the quality of drinking water every quarter to ensure the health of drinking water.

e. Fire safety

According to the fire laws and regulations, the Company has installed a complete fire system, including alarm devices, fire hydrants, fire extinguishers and escape systems. The Company inspects fire devices every month and engages qualified fire inspection institutions to report the inspection every year and to conduct the fire drill at least once every half a year to keep the fire facilities in optimum conditions at any time.

f. Training

The Company organizes general safety and health training for new or existing employees, and the training items and hours comply with the laws and regulations.

License training: According to the laws and regulations, the Company engages qualified external training institutions to organize license training and retraining for operators, such as radiant machine operator, first aid personnel, forklift operators, and operations supervisors.

g. Right to know

In addition to posting warnings and posters in work environment, the Occupational Safety Office conveys the Occupational Safety and Health Act and occupational injury cases to employees from time to time. In the orientation training, the Company highlights the hazardous substance prevention and instructions to reduce occupational incidents.

h. Health examination

Before reporting in for duty, new employees are required to take the physical examination at any qualified hospital and submit the health examination report. The Company organizes the health examination for employees every year; in addition, the Company organizes the special health examination for existing employees working in special operations every year according to the laws and regulations.

For existing employees having served for a year, the Company has managed to organize a regular health examination every year.

i. Personal protective equipment

According to the laws and regulations, the Company has provided personal protective equipment required in the operations and posted related signs at each

workplace for employees to follow.

j. Incident investigation, analysis, and handling

In case of occupational incidents, the Company investigates into them according to the incident investigation procedures. The Occupational Safety Office is responsible to work with labor representatives and related responsible departments to investigate into the occupational incidents. The responsible departments should fill in the reasons for the occupational incidents, propose corrective measures, and report to the monthly occupational incident system. In case of major occupational incidents stipulated by laws, the responsible departments should notify the labor inspection agencies within 8 hours.

k.Hazardous chemicals

The Company has established the hazard education plan according to laws and regulations and organized safety and health training to improve employees' understanding of chemicals and hazard prevention, including the list of chemicals, safety data sheets, and hazard labels.

1. Group insurance

The Company includes each employee in group insurance. In case of occupational injuries, employees are eligible to apply for labor insurance and group insurance claims.

(2) Any loss sustained as a result of labor disputes in the most recent year up to the date of publication of the Annual Report, an estimate of losses incurred to date or in the future, and response measures: None.

6. Information security management

- 1.Describe information security risk management framework, information security policy, specific management plans, resources invested in information security management, etc.:
 - (1)Information security risk management framework

The Company's Information Department is responsible for coordinating and implementing information security policies, regularly advocating information security to enhance employees' awareness of information security, and maintain the effectiveness of information security system products or procedures.

(2)Information security policy

The Company has established the information system management procedures and formulated the information security policies to substantiate information security management, and to ensure the correctness, comprehensiveness, confidentiality, and effectiveness of the information system.

- (3).pecific management plans
 - (a)Comply with the management methods of the information system management procedures and establish a reliable and safe information system.
 - (b) It is necessary to have the backups of the important information systems prepared and disaster recovery plan rehearsed in order to maintain their availability for use.
 - (c)The Company's external network must be equipped with an information security system to enhance information security protection.
 - (d)The computers used by employees must be equipped with proper information security protection and control.
 - (e)The employees' computer accounts must be equipped with appropriate control

mechanisms.

- (f) It is necessary to improve the awareness of the personnel responsible for infrastructure IT interruption & information security with education and training arranged for them every year.
- (g) A list of the software used by the Company must be prepared for management; also, employees are strictly prohibited from using unauthorized or pirated software.
- (h) Establish the Information Security Committee to review information security policies and report to the management regarding the information security implementation regularly.
- (i)The Company has budges appropriated for the information security system every year, a system upgrade or improvement plan implemented, and information security protection reinforced.
- (4). Invest resources in information security management
 - (1) Replace the file server so to achieve fast data copy and backup in remote locations in order to prevent data loss.
 - (2) Replace network firewall and network switch equipment to enhance information security protection.
 - (3) Replace mail system and host to improve the security and availability of the mail system.
 - (4) Replace ERP-related system hosts to improve system stability and availability.
 - (5) Establish an Information Security Committee to review information security policies and enhance information security management.
 - (6) Arrange information security education & training and propaganda to enhance employees' information security knowledge.
 - (7) Prepare an information security budget every year to gradually improve the information security protection system.
- 2. If the losses, possible impacts, and countermeasures of major information security incidents cannot be reasonably estimated in the most recent year and as of the annual report publication date, such fact should be explained in details: None

7. Important Contracts

Nature of	Contracting	Commencement/Expirati	Main Content	Restrictive
Contract	Party	on Date (yyyy/mm/dd)		Clause
Loan	Land Bank of	2013/09/27~2027/01/19	Long-term	Note

Changes in financial ratios over the past two years:

6. Cash reinvestment ratio: Mainly due to the decrease in net cash flow from operating activities and the increase in cash dividends in 2023, resulting a decrease in the cash reinvestment ratio.

7. Operating leverage: Mainly due to the decrease in operating profits in 2023, resulting an increase in the operating leverage.

^{1.} Liabilities to assets ratio: Mainly due to the decrease in other payables and current income tax liabilities in 2023, resulting a decrease in the liabilities to assets ratio.

^{2.} Current ratio: Mainly due to the decrease in current liabilities arising from other payables and current income tax liabilities in 2023, resulting an increase in the current ratio.

^{3.} Interest coverage ratio: Mainly due to the decrease in net income before income tax and interest expenses in 2023, resulting a decrease in the interest coverage ratio.

^{4.} Property, plant and equipment turnover rate: Mainly due to the decrease in net sales, resulting a decrease in the property,

plant and equipment turnover rate.

5. Return on assets, return on equity, ratio of net income before tax to paid-in capital, net profit rate, and earnings per share:

Mainly due to the decrease in 2023 net income, resulting a decrease in the return on assets, return on equity, ratio of net income before tax to paid-in capital, net profit rate, and earnings per share.

A. Financial structure

- (A) Debt to asset ratio = Total liabilities/Total assets.
- (B) The ratio of long-term funds to property, plant and equipment = (Total equity + noncurrent liabilities) / net property, plant and equipment.

B. Solvency

- (A) Current ratio = Current assets/Current liabilities.
- (B) Quick ratio = (Current assets–Inventories–Prepaid expenses)/Current liabilities.
- (C) Interest coverage ratio = Income before tax and interest expenses/Current interest expenses.

C. Operating ability

- (A) Receivables (including accounts receivable and notes receivable arising from business operations) turnover rate=Net sales/Average receivables (including accounts receivable and notes receivable arising from business operations) for each period.
- (B) Average collection days=365/Receivables turnover rate.
- (C) Inventory turnover rate=Cost of sales/Average inventory.
- (D) Payables (including accounts payable and notes payable arising from business operations) turnover rate=Cost of sales/Average payables (including accounts payable and notes payable arising from business operations) for each period.
- (E) Average days for sale=365/Inventory turnover rate.
- (F) Property, plant and equipment turnover = Net sales/average net property, plant and equipment.
- (G) Total asset turnover rate=Net sales/Average total assets.

D. Profitability

- (A) Return on assets = [Income after tax+Interest expenses (1-Tax rate)] /Average total assets.
- (B) Return on equity = Net income (loss)/Total average equity.
- (C) Profit margin = Income after tax/Net sales.
- (D) Earnings per share = (Profit or loss attributable to the shareholders of the parent company– Dividends on preferred shares)/Weighted average number of issued shares.

E. Cash flow

- (A) Cash flow ratio=Net cash flow from operating activities/Current liabilities.
- (B) Net cash flow adequacy ratio=Net cash flow from operating activities for the most recent five years/(Capital expenditures+Inventory increase+Cash dividends).
- (C) Cash reinvestment ratio = (Net cash flow from operating activities cash dividends) / (property, plant and equipment + long-term investment + other noncurrent assets + working capital).

F. Leverage

- (A) Operating leverage=(Net operating revenue–Variable operating costs and expenses)/Operating income.
- (B) Financial leverage=Operating income/(Operating income/Interest expenses).
- 3. Audit Committee's Review Report for the Most Recent Year's Financial Statements

Refer to Appendix 1 (Page123).

4. Financial Statements for the Most Recent Year (Consolidated)

Refer to Appendix 2 (Pages 124~190).

5. Standalone Financial Statements for the Most Recent Year, Audited by CPAs

Refer to Appendix 3 (Pages 191~265).

6. Up to the Printing Date of this Annual Report, has the Company or Related Companies Experienced Financial Turnover Difficulties:

None

VII. Review and Analysis of Financial Position and Financial Performance

1. Financial Position

The main reasons for the major changes in assets, liabilities, and shareholders' equity in the last two years and the impacts:

Unit: NT\$1,000

			Cint. TVI	1 9		
Year	2022	2022	Increase (D	Increase (Decrease)		
Item	2023	2022	Amount	%		
Current assets	2,497,360	2,692,271	(194,911)	(7.24)		
Property, plant and equipment	1,278,070	1,272,350	5,720	0.45		
Intangible assets	7,278	3,708	3,570	96.28		
Other assets	67,677	113,882	(46,205)	(40.57)		
Total assets	3,850,385	4,082,211	(231,826)	(5.68)		
Current liabilities	484,325	654,272	(169,947)	(25.97)		
Non-current liabilities	75,331	88,248	(12,917)	(14.64)		
Total liabilities	559,656	742,520	(182,864)	(24.63)		
Share capital	1,173,408	1,173,408	0	0.00		
Capital reserve	730,121	730,121	0	0.00		
Retained earnings	1,382,787	1,426,060	(43,273)	(3.03)		
Other equity	(12,391)	(6,328)	(6,063)	95.81		
Non-controlling interests	16,804	16,430	374	2.28		
Total equity	3,290,729	3,339,691	(48,962)	(1.47)		

Describe the major changes (the changes between two periods exceed 20% and an amount more than NT\$10 million) in the company's assets, liabilities, and shareholders' equity in the last two years:

^{1.} Decrease in other assets: Mainly due to the reclassification of prepaid equipment that has gradually become available for use to property, plant and equipment.

^{2.} Decrease in current liabilities and total liabilities: Mainly due to the decrease in profits and losses arising from the decline in market demand in 2023, resulting a decrease in other payables and current income tax liabilities.

2. Financial Performance

The main reason for the major changes in operating income, net operating profit, and net income before tax in the last two years:

(1) Analysis of financial performance:

Unit: NT\$1,000

Item	2023	2022	Amount of Increase (Decrease)	Increase (Decrease) (%)
Operating revenue	2,553,243	3,161,885	(608,642)	(19.25)
Operating costs	1,845,306	2,083,531	(238,225)	(11.43)
Gross profit	707,937	1,078,354	(370,417)	(34.35)
Operating expenses	399,343	439,514	(40,171)	(9.14)
Operating income	308,594	638,840	(330,246)	(51.69)
Non-operating revenue	16,753	100,063	(83,310)	(83.26)
and expenses				
Income before tax	325,347	738,903	(413,556)	(55.97)
Income tax expenses	63,151	150,726	(87,575)	(58.10)
(income)				
Net income	262,196	588,177	(325,981)	(55.42)

Main reasons for changes by 20% or more or NT\$10 million and the effect:

- 1. Decrease in operating gross profit, operating profit, net income before tax, and net income: Mainly due to the decrease in market demand in 2023, resulting a decrease in the operating gross profit, operating profit, net income before tax, and net income.
- 2. Decrease in non-operating income and expenses: Mainly due to the fluctuations in the USD exchange rate, resulting a decrease in foreign exchange gains and losses.
- 3. Decrease in income tax expenses (profits): Mainly due to the decrease in the net income before tax

(2) Expected sales volume and its basis, possible impact on the Company's future financial operation, and the responsive plans:

Focusing on the high-end market, the Company's products are highly standardized and equipped with special functions. In recent years, the Company's own brand, Viking, has been marketed in China and Asia successfully and widely adopted by electronics manufacturers in China, leading to high performance growth in China. The Company has been developing and producing new products on a mass scale in line with the industry trends. The sales volume in the coming year is estimated to be 30,283,000 thousand pieces.

3. Cash Flow

(1) Cash flow analysis:

Year	2023	2022	Increase (Decrease) (%)
Cash flow ratio (%)	110.90	92.27	20.19
Cash flow adequacy ratio (%)	93.37	86.97	7.36
Cash reinvestment ratio (%)	5.29	7.84	(32.49)

Analysis of changes by 20% or more:

- 1. Cash flow ratio: Mainly due to the decrease in current liabilities arising from other payables and current income tax liabilities in 2023, resulting an increase in the cash flow ratio.
- 2. Cash reinvestment ratio: Mainly due to the decrease in net cash flow from operating activities and the increase in cash dividends in 2023, resulting a decrease in the cash reinvestment ratio.

(2) Liquidity analysis for the coming year:

Unit: NT\$1,000

Ī	Cash,	Net Cash	Cash Used	Cash, End of	Corrective Measures for Cash		
	Beginning of	Flow from	(3)	Year	Inadequacy		
	Year (1)	Operating		(1)+(2)-(3)	Investment	Financing	
		Activities (2)			Plans	Plans	
Ī	792,389	795,256	(875,544)	712,101	-	-	

Analysis of changes in the cash flow in the coming year:

- 1. Cash flow from operating activities: The company's products are intended for high-precision and special-function applications with a focus on high-end market opportunities. The company has successfully entered the Chinese market and European and American markets with its own brand "Viking" in recent years with a stable growth in sales achieved. Therefore, there is net cash inflow generated from operating activities.
- 2. Investing activities: There is a net cash outflow from investing activities mainly due to the increase in capital expenditure of NT\$715,168 thousand for the expansion of production capacity,
- 3. Financing activities: There is a cash outflow from financing activities mainly due to the distribution of cash dividends and repayment of bank loans.
- 4. Effect of Major Capital Expenditures on Financial Operations for the Most Recent Year In 2023, capital expenditures amounted to NT\$200,425thousand, which could be covered by the cash flow generated from operating activities. Therefore, there was no material effect on the Company's financial operations.

5. Reinvestment Analysis

Reinvestment Policy for the Most Recent Year, Main Reasons for Profit or Loss Generated Thereby, Improvement Plan, and Investment Plan for the Coming Year:

The Company's investment under the equity method is mainly implemented in line with the Company's business strategy to invest in the companies in the related fields of the industry; also, most of the invested companies are included in the consolidated financial statements. The Company's reinvestment income under the equity method amounted to NT\$10,648 thousand in 2023, a decrease of NT\$29,658 thousand compared with the previous year. It was mainly due to the decrease in income of the invested companies affected by the recession. The Company will follow the established business strategy to control costs and carefully evaluate investment plans in the next year.

6. Risk Analysis

- (1) Effect of interest and exchange rate fluctuations and inflation on the Company's profit or loss, and response measures:
 - A. Impact on the Company's profit and loss:

Unit: NT\$1,000

Itaan	2023	
Item	Net interest income (expense)	Net exchange gains (losses)
Amount	7,518	(1,347)
Ratio of revenue (%)	0.29%	(0.05%)
Ratio of net income before tax (%)	2.31%	(0.41%)

(A) Interest rate fluctuations:

The Company's net interest income was NT\$7,518 thousand in 2023, accounted for 0.29% and 2.31% of the operating income and net income before tax of the year, respectively. The impact of interest income and expenses on the Company's revenue and profits was low; however, deposits were greatly affected by changes in interest rates. The Finance Department was to select bond funds with better performance to respond to the situation.

(B) Exchange rate fluctuations:

In addition to adopting a natural hedge strategy for foreign exchange transactions, the Company pays attention to exchange rate fluctuations at any time and adjusts foreign currency assets and liabilities in a timely manner to reduce the effect of exchange rate fluctuations on the Company's profit or loss. As the Company's sales model focuses on export, foreign currency assets are relatively high. In 2023, USD and RMB fluctuated significantly, the effect of exchange rate fluctuations was noticeable. Considering the focus on the major line of business, the Company did not engage in foreign exchange transactions for hedge purpose. In the future, the Company will continuously pay attention to the market conditions and exchange rate fluctuations at any time and review and control foreign currency assets to avoid any exchange rate risk.

- B. Inflation: The Company pays close attention to the supply and demand of raw materials and the changes in raw material prices to adjust inventory in a timely manner. In the future, the Company will collect information on inflation and the government's price index policy from time to time to purchase raw materials appropriately.
- (2) Internal policies on high-risk investments, highly leveraged investments, loans to other parties, endorsements/guarantees, and derivatives transactions, main reasons for the Company's profit or loss generated thereby, and response measures:
 - A. The Company did not engage in any high-risk investments or highly leveraged investments.
 - B. The Company always adopts a conservative strategy for derivatives transactions and follows the established Regulations Governing the Handling of Derivatives Transactions. As of the date of publication of the Annual Report, the Company did not engage in any derivatives transactions.
 - C. The Company has established the Regulations Governing the Making of Endorsements/Guarantees according to related laws. As of the date of publication of the Annual Report, the Company did not make any endorsements/guarantees.
 - D. The Company has established the Regulations Governing the Lending of Funds to Others according to related laws. As of the date of publication of the Annual Report, the Company did not loan to others.
- (3) Research and development plans in the future and their expected expenditures:

The requirements on passive components have become more significant along with the miniaturization of parts. The Company will continue to develop competitive and specific anti-sulfation, anti-surge, high voltage, and high-power resistors by taking advantage of the excellent thick/thin film process technology. The Company's estimated R&D expenses in 2024 are approximately NT\$71,300 thousand, which will be invested in product research and development and refinement as well as enhancing existing technology and market competitiveness.

Main influential factors to the future success of research and development:

1 · Grasp market demand and product development trends, define clear R&D strategies,

and effectively manage and control product development schedules.

- 2 · Assess resources effectively, and plan and allocate resources (human resources & material resources) needed throughout the process of development.
- 3 · Cultivate personnel actively and establish relevant product quality awareness and passing on of development experience in order to enhance product development capabilities.
- 4 Properly control cost and yield rate throughout the production process.
- (4) Effect of important policies and changes in the legal environment at home and abroad on the Company's financial operations, and response measures:

The Company follows the government's policies and laws and regulations. The management is able to control and comply with important policies and legal changes, and timely adjust the Company's business activities and governance in accordance with changes in policies and regulations to maintain the smooth business operations.

(5)The impact of technological changes (including information security risks) and industrial changes on the Company's financial business and the countermeasures:

To ensure the autonomy and legitimacy of technologies, the Company not only develops new technologies through the internal research and development team, but also research on emerging technologies in collaboration with domestic research institutes to secure its technology leadership; in addition, upon completion of new technology development, the Company will apply for patents in Europe, the U.S., Japan, and China to prevent the newly developed technology from being preempted by other peers. Through application for patents, the Company can maintain the results of research and development and commercial interests and reduce overall business risks.

The Company has formulated information security policies to regulate the implementation and compliance of internal information security policies, and the auditors are to audit the information security inspections performed occasionally every year. At the same time, both internal and external information security protection systems are constructed, and internal and external information security risks and preventions are reviewed and identified every year in order to reduce the threat or impact on the Company's operating system.

(6) Effect of changes in the corporate image on the Company's crisis management, and response measures:

The Company requires all employees to strictly follow the code of conduct and ethics and provides customers quality products and services in line with the government's policies and laws and regulations; the Company has also established and amended internal policies

and systems to maintain the corporate image. In the most recent year up to the date of publication of the Annual Report, no event has had an impact on the Company's corporate image.

(7) Expected benefits and possible risks associated with any mergers and acquisitions, and response measures:

In the most recent year up to the date of publication of the Annual Report, the Company has not planned any mergers or acquisitions. If there is a need of merger or acquisition in the future, the Company will evaluate the merger or acquisition with prudence as to whether it will bring the specific synergy to protect the shareholders' rights and interest.

(8) Expected benefits and possible risks associated with any plant expansion, and response measures:

As the Company leads in process technology and is able to flexibly adjust the capacity in response to the need of electronic components, plant expansion allows the Company to increase the capacity and receive more orders, thereby increasing revenue and profitability. After the capacity reaches the economic scale, production costs can be significantly reduced.

The Company has carefully planned for capital expenditures on the production expansion to meet customers' needs while optimizing the utilization of capital.

- (9) Risks associated with any consolidation of sales or purchasing operations, and response measures:
 - 1. The single supplier with the highest proportion of the purchases only accounted for 11.75% of the Company's purchases. There was no risk of consolidation of purchasing operations.
 - 2. The largest customer accounted for 5.91% of the Company's sales. There was no risk of consolidation of sales operations.
- (10) Effect on and risk to the Company in the event a major quantity of shares belonging to a director, supervisor, or shareholder with a stake of more than 10% has been transferred or has otherwise changed hands, and response measures:

Since the incorporation of the Company, the Company's directors, supervisors, or shareholders with a stake of more than 10% have held shares for the purpose of sustainable management. The Company has reported changes in shareholding of the aforesaid personnel on schedule according to the Securities and Exchange Act. As of the date of publication of the Annual Report, there has been no transfer or change of shares.

(11) Effect on and risk to the Company associated with any changes in the governance personnel or top management, and response measures:

Since the incorporation of the Company, professional managers have been engaged to manage the Company; therefore, any changes in the shareholder structure will not affect the Company's business promotion.

(12) Litigious and non-litigious matters (please list major litigious, non-litigious or administrative disputes that: (1) involve the Company and/or any director, any supervisor, the President, any person with actual responsibility, any major shareholder holding a stake of more than 10%, and/or any company controlled by the Company; and (2) have been

concluded by means of a final and unappealable judgment, or are still under litigation. Where such a dispute could materially affect shareholders' equity or the prices of the Company's securities, the facts of the dispute, amount of money at stake in the dispute, the date of litigation commencement, the main parties to the dispute, and the status of the dispute shall be disclosed): None.

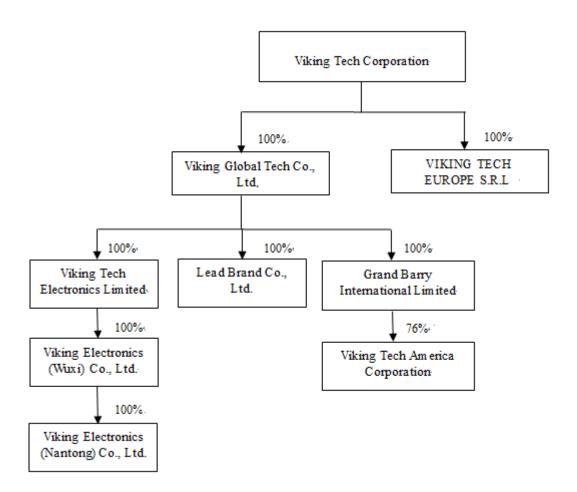

(13) Other important risks and response measures: None.

7. Other Important Matters:

None.

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

PWCR23003567

To the Board of Directors and Shareholders of VIKING TECH CORPORATION

Opinion

We have audited the accompanying consolidated balance sheets of VIKING TECH CORPORATION and its subsidiaries (the "Group") as at December 31, 2023 and 2022, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statements Audit and Attestation Engagements of by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period.

These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

The key audit matters in relation to the consolidated financial statements for the year ended December 31, 2023 are outlined as follows:

Cut-off risk error of revenue recognition

Description

Refer to Note 4(24) for accounting policy on revenue recognition. The Company is primarily engaged in exports and offers different credit terms to their customers. The credit terms for some customers are delivered at place and the timing for transferring the control of goods is based on the customer confirmation documents. Given that the revenue recognition process relies on manual processes and the large volume of daily sales transactions which are material to the financial statements, we thus consider sales cut-off as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- 1. Assessed the reasonableness of the sales recognition accounting policy.
- 2. Understood and tested the design and effectiveness of relevant internal controls when recognising the sales revenue.
- 3. Sampled delivery orders and customer confirmation documents during a certain period before and after the balance sheet date to ensure the accuracy of cut-off of sales revenue.

Assessment of allowance for inventory valuation losses

Description

Refer to Note 4(12) for accounting policies on inventory, Note 5 for significant accounting estimates and assumptions of inventory, and Note 6(5) for details of allowance for inventory valuation losses.

The Company manufactures and sells thick and thin film passive components products. Due to the competitive market in the industry and the fluctuating prices, there is a higher risk of inventory losing value or becoming obsolete. The inventories are stated at the lower of cost and net realisable value and the possible losses arising from aged and obsolete inventories are also assessed. Given that the evaluation on the aged and obsolete inventories involves subjective judgement which results in estimation uncertainty and the impact of aged inventories and allowance for inventory valuation

losses are material to the financial statements, we thus consider assessment of allowance for inventory valuation losses as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- 1. Understood and assessed the reasonableness of allowance for inventory valuation losses policy including the historical sources of inventory clearance process.
- 2. Obtained the inventory assessment report prepared by the management and checked the completeness of the information on the inventory aging report.
- 3. Verified the accuracy of the intervals and relevant information used on the inventory aging report, ensured the allowance loss valuation and the provision policy are consistently applied and further assessed the reasonableness of the estimations of allowance for inventory valuation losses.

Other matter – Parent company only financial reports

We have audited and expressed an unmodified opinion on the parent company only financial statements of Viking Tech Corporation, as at and for the years ended December 31, 2023 and 2022.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures

are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Bai, Shu-Chien	Liu, Chien-Yu
For and on behalf of PricewaterhouseCooper	rs, Taiwan
March 8, 2024	

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

<u>VIKING TECH CORPORATION AND SUBSIDIARIES</u> NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANISATION

VIKING TECH CORPORATION (the "Company") was incorporated as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.). The Company and its subsidiaries (collectively referred herein as the "Group") are primarily engaged in research and development, manufacturing and sale of thick and thin film passive components.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

The consolidated financial statements were authorised for issuance by the Board of Directors on March 8, 2024.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by FSC and became effective from 2023 are as follows:

	Effective date by
	International
	Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities	January 1, 2023
arising from a single transaction'	
Amendments to IAS 12, 'International tax reform - pillar two model	May 23, 2023
rules'	

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:

	Effective date by
	International
	Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
Amendments to IAS 1, 'Classification of liabilities as current or non-	January 1, 2024
current'	
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024
Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'	January 1, 2024

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

	Effective date by International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets	To be determined by
between an investor and its associate or joint venture'	International
	Accounting Standards
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 –	January 1, 2023
comparative information'	
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the IFRSs").

(2) Basis of preparation

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
 - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Financial assets and liabilities at fair value through other comprehensive income.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant.

(3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
 - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
 - (b) Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
 - (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to
 - the owners of the parent and to the non-controlling interests even if this results in the noncontrolling interests having a deficit balance.

(d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.

B. Subsidiaries included in the consolidated financial statements:

Name of	Name of	Main business	Owners		
investor	subsidiary	activities	December 31, 2023	December 31, 2022	Description
VIKING TECH CORPORATION	Viking Global Tech Co., Ltd.	Broad businesses and investments	100	100	
VIKING TECH CORPORATION	VIKING TECH EUROPE S.R.L	Sale of thin film passive components	100	-	Note
Viking Global Tech Co., Ltd.	Lead Brand Co., Ltd.	Sale of thin film passive components	100	100	
Viking Global Tech Co., Ltd.	Viking Tech Electronics Limited	Broad businesses and investments	100	100	
Viking Global Tech Co., Ltd.	Grand Barry International Limited	Broad businesses and investments	100	100	
Grand Barry International Limited	Viking Tech America Corporation	Sale of film and thick film passive components	76	76	
Viking Tech Electronics Limited	Viking Electronics (WUXI) CO.LTD.	Manufacturing and sale of passive components and thermistors	100	100	
Viking Electronics (WUXI) CO.LTD.	Viking Electronics (Nantong) CO.LTD.	Manufacturing and sale of passive components and thermistors	100	-	Note

- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.

- E. Major restriction: None.
- F. Subsidiaries with significant non-controlling interests in the Group: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the

Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) Except for the foreign exchanges gains and losses relating to borrowings as well as cash and cash equivalents are presented in the statement of comprehensive income within 'other income and finance costs', others are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and

- iii. All resulting exchange differences are recognised in other comprehensive income.
- (b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using settlement date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Group recognises the dividend income when the right to receive payment is established,

future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at amortised cost

- A. Financial assets at amortised cost are those that meet all of the following criteria:
 - (a) The objective of the Group's business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using settlement date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.
- D. The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(9) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(10) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortised cost, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(11) <u>Derecognition of financial assets</u>

The Group derecognises a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.

C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Group has not retained control of the financial asset.

(12) <u>Inventories</u>

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(13) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures $20 \sim 50$ years Machinery and equipment $2 \sim 12$ years Other equipment $2 \sim 10$ years

(14) Leasing arrangements (lessee) — right-of-use assets/ lease liabilities

A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.

- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:
 - (a) Fixed payments, less any lease incentives receivable;
 - (b) Variable lease payments that depend on an index or a rate;
 - (c) Amounts expected to be payable by the lessee under residual value guarantees;
 - (d) The exercise price of a purchase option, if the lessee is reasonably certain to exercise that option; and
 - (e) Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
 - (a) The amount of the initial measurement of lease liability;
 - (b) Any lease payments made at or before the commencement date;
 - (c) Any initial direct costs incurred by the lessee; and
 - (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(15) Intangible assets

Computer software expenditures are stated at cost and amortized on a straight-line basis over its estimated useful life of 2 to 5 years.

(16) <u>Impairment of non-financial assets</u>

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the

depreciated or amortised historical cost would have been if the impairment had not been recognised.

(17) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(18) Notes and accounts payable

Notes and accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. However, short-term accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(19) <u>Derecognition of financial liabilities</u>

A financial liability is derecognised when the obligation specified in the contract is either discharged

or cancelled or expires.

(20) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected

to be paid in respect of service rendered by employees in a period and should be recognised as expenses in that period when the employees render service.

B. Pensions

(a)Defined contribution plans

For defined contribution plans, the Company has no legal or constructive obligation to make additional contributions after a fixed amount is contributed to a public or privately managed and independent pension fund. The contributions are recognised as pension expenses when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Subsidiary pensions are handled in accordance with local laws and regulations.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognised as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the

subsequent actual distributed amounts is accounted for as changes in estimates.

(21) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional income tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.

(22) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(23) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(24) Revenue recognition

Sales of goods

A. The Group manufactures and sells thick and thin film passive components. Sales are recognised when control of the products has transferred, being when the products are delivered to the

customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.

B. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(25) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments.

5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY</u>

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors.

Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technological innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of December 31, 2023, the carrying amount of inventories was \$795,666.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	Decen	nber 31, 2023	December 31, 2022		
Cash on hand and revolving funds	\$	1,161	\$	1,135	
Checking accounts and demand deposits		634,314		747,022	
Cash equivalents					
Time deposits		1,142		1,115	
Wealth investment product		155,772		79,344	
Total	\$	792,389	\$	828,616	

- A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. Cash and cash equivalents pledged to banks as collateral were classified as other current financial assets. Information is provided in Note 8.

(2) Financial assets at fair value through profit or loss

Items	Decen	mber 31, 2023	Dece	mber 31, 2022
Current items:				
Financial assets mandatorily measured at fair				
value through profit or loss				
Beneficiary certificates	\$	289,920	\$	411,326
Valuation adjustment	(61)	(1,502)
Total	\$	289,859	\$	409,824

- A. The Group recognised net gain(loss) of \$6,624 and (\$1,997) for the years ended December 31, 2023 and 2022, respectively.
- B. The Group has no financial assets at fair value through profit or loss pledged to others.

(3) Financial assets at amortised cost

Items	Decem	ber 31, 2023	December 31, 2022
Current items:			
Financial products	\$	25,962	\$ -

- A. The Group recognised interest income of \$973 and \$1,459 for amortised cost in profit or loss for the years ended December 31, 2023 and 2022.
- B. The credit quality of the Group's investment targets is good.
- C. No financial assets at amortised cost held by the Group were pledged to others.
- D. For information on credit risk of financial assets measured at amortized cost, please refer to Note 12(2) for details.

(4) Notes and accounts receivable

	Decem	nber 31, 2023	December 31, 2022		
Notes receivable	\$	27,984	\$	23,421	
Less: Allowance for uncollectible accounts				<u> </u>	
	\$	27,984	\$	23,421	
Accounts receivable	\$	484,888	\$	543,816	
Less: Allowance for uncollectible accounts	(5,833)	(6,698)	
	\$	479,055	\$	537,118	

A. The ageing analysis of accounts receivable that were past due but not impaired is as follows:

	Decen	December 31, 2022		
Not past due	\$	491,994	\$	537,529
Up to 60 days		14,036		20,082
61 to 90 days		117		1,821
91 to 180 days		1,311		1,730
Over 180 days		5,414		6,075
	\$	512,872	\$	567,237

The above ageing analysis was based on past due date.

- B. As of December 31, 2023 and 2022, and January 1, 2022, the balances of receivables (including notes receivable) from contracts with customers amounted to \$512,872, \$567,237, and \$728,111, respectively.
- C. The Group does not hold any collateral as security.
- D. As at December 31, 2023 and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's notes receivable were \$27,984 and \$23,421, and accounts receivable were \$479,055 and \$537,118, respectively.
- E. Information relating to credit risk is provided in Note 12(2).

(5) <u>Inventories</u>

	December 31, 2023									
	Allowance for									
		Cost		valuation loss		Book value				
Raw materials	\$	410,077	(\$	7,737)	\$	402,340				
Work in progress		248,254	(48,350)		199,904				
Finished goods		176,961	(36,874)		140,087				
Merchandise		57,674	(4,339)		53,335				
	\$	892,966	(<u>\$</u>	97,300)	\$	795,666				
	December 31, 2022									
				Allowance for						
		Cost		valuation loss		Book value				
Raw materials	\$	423,209	(\$	6,543)	\$	416,666				
Work in progress		231,766	(35,790)		195,976				
Finished goods		191,008	(33,119)		157,889				
Merchandise		78,799	(5,986)		72,813				
	\$	924,782	(<u>\$</u>	81,438)	\$	843,344				

The cost of inventories recognised as expense for the year:

Cost of goods sold
Loss on decline in market price
and slow-moving inventories
Revenue from sale of scraps

	Years ended	Decei	nber 31
	2023		2022

A. The significant components of buildings are depreciated over 50 years.

B. Information about the property, plant and equipment that were pledged to others as collaterals is provided in Note 8.

(7) Leasing arrangements—lessee

- A. The Group leases various assets including land, buildings, and business vehicles. Rental contracts are typically made for periods of 2 to 10 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.
- B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	Decem	iber 31, 2023	Decem	ber 31, 2022	
	Carry	ing amount	Carrying amount		
Land	\$	1,408	\$	2,150

(12) Pensions

- A. Effective July 1, 2005, the Company has established a defined contribution pension plan (the"New Plan") under the Labor Pension Act (the"Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contribute monthly an amount based on 6% of the employees'monthly salaries and wages to the employees'individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- B. The subsidiary, Viking Electronics (WUXI) CO., LTD. provides pension insurance premiums based on a certain percentage of the total salary of local employees according to the pension system prescribed by the government of the People's Republic of China. The ratio of 2023 and 2022 is 20%. The pension for each employee is arranged by the government. The Group has no further obligations except for monthly payments.
- C. The pension costs under the defined contribution pension plans of the Company for the years ended December 31, 2023 and 2022 were \$21,834 and \$21,104, respectively.

(13) Share capital

As of December 31, 2023, the Company's authorised capital was \$1,500,000, consisting of 150 million shares of ordinary stock (including 15 million shares reserved for employee stock options and convertible bonds issued by the Company), and the amount issued was \$1,173,408 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

There was no change in the number of shares for the years ended December 31, 2023 and 2022.

Details of the balances at the end of the year are as follows:

		Unit: in thousand shares
	2023	2022
At December 31	117,341	117,341

(14) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(15) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall offset prior years' operating losses. The remaining amount shall be set aside as legal reserve in accordance with the regulations and the special reserve shall be set aside or reversed, if necessary. The remainder along with the previous years' unappropriated retained earnings, if any, to be appropriated shall be proposed by the Board of Directors at its meeting and then resolved by the stockholders at their meeting.
- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the balance of the reserve exceeds 25% of the Company's paid-in capital.
- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- D. Under the Company's Articles of Incorporation, dividends to the shareholders can be distributed in cash or share dividends. However, the cash dividends shall not be less than 20% of the total distribution.
- E.(a) The appropriations of 2022 and 2021 earnings had been resolved at the Board of Directors'and stockholders' meeting on June 27, 2023 and June 27, 2022, respectively. Details are summarized below:

		2022			2021			
		Dividends per					Dividen	ds per

Other personnel expenses		28,300		26,115
	\$	692,180	\$	759,437

- A. In accordance with the Articles of Incorporation of the Company, a ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees 'compensation and directors' and supervisors' remuneration. The ratio shall be 10% for employees' compensation and shall be 5% for directors' and supervisors' remuneration. However, annual net income should first be reserved to offset the Company's accumulated deficit prior to the distribution of compensation and remuneration.
- B. For the years ended December 31, 2023 and 2022, employees' compensation was accrued at \$35,974 and \$84,588, respectively; while directors' and supervisors' remuneration was accrued at \$17,987 and \$42,294, respectively. The aforementioned amounts were recognised in salary expenses.

The employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on 10% and 5% of distributable profit of current year.

Employees' compensation and directors' remuneration of 2023 and 2022 as resolved by the Board of Directors were in agreement with those amounts recognised in the 2023 and 2022 financial statements, respectively.

Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(24) Income tax

8. PLEDGED ASSETS

The Group's assets pledged as collateral are as follows:

		Book			
Pledged asset	Decen	nber 31, 2023	Decer	mber 31, 2022	Purpose
Land	\$	229,932	\$	229,932	Bank loan (Note 1)
Buildings and structures		145,127		151,531	Bank loan (Note 1)
Time deposits(shown as					Raw material import
other curent assets-others)		1,800		1,800	tariff guarantee
	\$	376,859	\$	383,263	

Note: It was pledged to Taiwan Land Bank New Works Branch and Changhua Commercial Bank Hsinchu Branch as collateral for long-term borrowings.

9. <u>SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT</u> <u>COMMITMENTS</u>

(-)Contingencies: None.

(二)Commitments:

Capital expenditure contracted for at the balance sheet date but not yet incurred is as follows:

	December 31, 2023		December 31, 2022		
Machinery	\$	24,164	\$	50,880	

10. SIGNIFICANT DISASTER LOSS

None.

11. <u>SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE</u>

The information regarding the appropriations of 2023 earnings is provided in Note 6(15).

12.OTHERS

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. During the year ended December 31, 2023 the Group's strategy, which was unchanged from 2022, was to maintain the gearing ratio under 50%.

(2) Financial instruments

A. Financial instruments by category

	\$	522,107	\$	639,807
Lease liability	\$	27,679	\$	18,393

B. Financial risk management policies

- (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.
- (b)Risk management is carried out by a finance department (Company finance) under policies approved by the Board of Directors. Company finance identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

i. The Group operates internationally and is exposed to foreign exchange risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD and RMB. Foreign exchange risk arises from future

- commercial transactions, recognised assets and liabilities and net investments in foreign operations.
- ii. Management has set up a policy to require group to manage their foreign exchange risk against their functional currency. The Group companies are required to hedge their entire foreign exchange risk exposure with the Group treasury. Foreign exchange risk arises when future commercial transactions or recognized assets or liabilities are denominated in a currency that is not the entity's functional currency.
- iii. The Group's businesses involve some non-functional currency operations. The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2023						
	Foreig	n currency					
	ar	nount		В	ook value		
	(In th	ousands)	Exchange rate		(NTD)

USD:NTD	1%	(\$	357)	\$	-		

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through other comprehensive income and available-for-sale financial assets. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio.
- ii.The Group's investments in equity securities comprise domestic and foreign stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other components of equity for the years ended December 31, 2023 and 2022 would have increased/decreased by \$2,989 and \$4,098, respectively, as a result of other comprehensive income classified as available-for-sale equity investment and equity investment at fair value through other comprehensive income.

Cash flow and fair value Interest rate risk

- i. The Group's interest rate risk arises from short-term and long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rates.
- ii. Based on the simulations performed, the impact on post-tax profit of a 1% shift would be a maximum increase or decrease of \$558 and \$751 for the years ended December 31, 2023 and 2022, respectively. The simulation is done on a quarterly basis to verify that the maximum loss potential is within the limit given by the management.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortised cost, at fair value through profit or loss and at fair value through other comprehensive income.
- ii. The Group manages their credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- iii. The Group adopts the assumptions under IFRS 9, the default occurs when the contract payments are past due over 90 days.
- iv. The Group adopts following assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:

 If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- v. The Group classifies customers' accounts receivable in accordance with credit rating of customer. The Company applies the modified approach using loss rate methodology to estimate expected credit loss.
- vi. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
 - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
 - (ii) The disappearance of an active market for that financial asset because of financial difficulties;
 - (iii) Default or delinquency in interest or principal repayments;
 - (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.
- vii.The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.

viii. The Group used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. As at December 31, 2023 and 2022, the loss rate methodology is as follows:

		Up to 60	61~90	91~180	Over 180	
	Not past	days past	days	days	days past	
	due	due	past due	past due	due	Total
<u>At December 31, 2023</u>						
Expected loss rate	0%	1.75%	20.00%	30.00%	95.51%	
Total book value	\$491,994	\$ 14,036	\$ 117	\$ 1,311	\$ 5,414	\$512,872
Loss allowance	-	(245)	(23)	(394)	(5,171)	(5,833)
		Up to 60	61~90	91~180	Over 180	
	Not past	days past	days	days	days past	
	due	due	past due	past due	due	Total
<u>At December 31, 2022</u>						
Expected loss rate	0%	1.60%	20.00%	30.00%	90.41%	
Total book value	\$537,529	\$ 20,082	\$ 1,821	\$ 1,730	\$ 6,075	\$567,237
Loss allowance	-	(323)	(364)	(519)	(5,492)	(6,698)

ix. Movements in relation to the Group applying the modified approach to provide loss allowance for accounts receivable, contract assets and lease payments receivable are as follows:

	2023						
	Accoun	nts receivable		Notes receivable			
At January 1	\$	6,698	\$		-		
Reversal of impairment loss	(855)			-		
Wrice-offs	(7)			-		
Effect of foreign exchange	(3)					
At December 31	\$	5,833	\$				
	2022						
	Accoun	nts receivable		Notes receivable			
At January 1	\$	5,974	\$		-		
Reversal of impairment loss		675			-		
Effect of foreign exchange		49					
At December 31	\$	6,698	\$				

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets and, if applicable external regulatory or legal requirements, for example, currency restrictions.
- ii. Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Group treasury. Group treasury invests surplus cash in, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient head-room as determined by the above-mentioned forecasts.
- iii. The Group has the following undrawn borrowing facilities:

	Dec	cember 31, 2023	Dec	cember 31, 2022
Floating rate:		1.73%~2.23%		1.48%~2.11%
Expiring within one year	\$	430,000	\$	575,000

iv. The table below analyses the Group's non-derivative financialliabilities based on the remaining period at the balance sheet date to the contractual maturity date for nonderivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative financial liabilities

		Between	Between	Between		
		61 days	91 days	181 days		
	Less than	and 90	and 180	and 360	Over 360	
December 31, 2023	60 days	days	days	days	days	Total
Accounts payable	\$129,078	\$41,291	\$22,110	\$ -	\$ -	\$192,479
Other payables	171,913	17,403	7,375	58,790	-	255,481
(including related						
parties)						
Lease liability	1,523	663	1,989	3,869	20,527	28,571
Long-term borrowings	3,453	1,727	5,180	10,359	51,385	72,104
(including current						
portion)						

Non-derivative financial liabilities

		Between	Between	Between		
		61 days	91 days	181 days		
	Less than	and 90	and 180	and 360	Over 360	
December 31, 2022	60 days	days	days	days	days	Total
Short-term borrowings	\$ 13	\$ 6	\$ 19	\$ 5,010	\$ -	\$ 5,048
Accounts payable (including related parties)	120,741	42,269	17,674	-	-	180,684
Other payables	195,282	26,992	6,305	132,188	-	360,767
Lease liability	1,057	408	1,156	2,186	14,138	18,945
Long-term borrowings (including current portion)	3,440	1,720	5,159	10,318	72,069	92,706

(三)<u>Fair value information</u>

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in beneficiary certificates is included in Level 1
 - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
 - Level 3: Unobservable inputs for the asset or liability.
- B. Financial instruments not measured at fair value

The carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, short-term borrowings, notes payable, accounts payable and other payables are approximate to their fair values.

- C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:
 - (a) The Group's financial assets and liabilities measured at fair value are as follows:

		December 31, 2023							
		Level 1		Level 2	_	Level 3	3		Total
Assets:									
Recurring fair value measurements									
Financial assets at fair									
value through profit or loss									
Equity securities	\$	298,859	\$	-	\$		-	\$	298,859
	December 31, 2022								
		Level 1		Level 2		Level 3	3		Total
Assets:				_					
Recurring fair value measurements									
Financial assets at fair									
value through profit or loss									
Equity securities	ф	409,824	Φ.		Φ.			\$	409,824

(b) The methods and assumptions the Group used to measure fair value are as follows: The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed shares, according to the characteristics of the tool, it is listed as follows:

Market quoted price

Open-end fund

Net asset value

- D. For the years ended December 31, 2023 and 2022, there was no transfer between Level 1 and Level 2.
- E. For the years ended December 31, 2023 and 2022, there was no transfer into or out from Level 3.

13. <u>SUPPLEMENTARY DISCLOSURES</u>

- (1) Significant transactions information
- A. Loans to others: None.
- B. Provision of endorsements and guarantees to others: None.
- C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 1.
- D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: Please refer to table 2.
- E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of

paid-in capital or more: Please refer to table 3.

- H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 4.
- I. Trading in derivative instruments undertaken during the reporting periods: None.
- J. Significant inter-company transactions during the reporting periods: Please refer to table5.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 6.

- (3) Information on investments in Mainland China
 - A. Basic information: Please refer to table 7.
 - B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Please refer to table 8.
- (4) Information on major shareholders

Please refer to table 9.

14. SEGMENT INFORMATION

(1) General information

The Group operates only a single industry and the Group's operating decision makers assess the performance and allocate resources as a whole, and the Group is identified as a reporting department.

(2) Segment information

The Group assesses the performance of operating segments based on their individual financial statements prepared by operating segments. The accounting policies of operating segments are the same as the significant accounting policies summarized in Note 4.

(3) Segment information

<u>December 31, 2023</u>	Amount		
Revenue from external customers	\$	2,553,243	
Segment income (loss)	\$	325,347	
Segment assets	\$	3,850,385	
Segment liability	\$	559,656	
December 31, 2022	Amount		
Revenue from external customers	\$	3,161,885	
Segment income (loss)	\$	738,903	
Segment assets	\$	4,082,211	
Segment liability	\$	742,520	

- (4) Adjustment of departmental profit and loss: None.
- (5) Product and service information: Please refer to Note 6 (17).
- (6) Geographical information

Geographical information for the years ended December 31, 2023 and 2022 is as follows:

	 Decemb	er 31,	2023	December 31, 2022					
	 Revenue	Non-current assets			Revenue	Non	-current assets		
China	\$ 823,775	\$	42,295	\$	1,000,097	\$	53,867

3. Standalone Financial Statements for the Most Recent Year, Audited by CPAs

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

PWCR23003515

To the Board of Directors and Shareholders of VIKING TECH CORPORATION

Opinion

We have audited the accompanying balance sheets of VIKING TECH CORPORATION (the "Company") as at December 31, 2023 and 2022, and the related statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2023 and 2022, and its financial performance and its cash flows for the years then ended in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers".

Basis for opinion

We conducted our audit of the financial statements as of and for the year ended December 31,2023 and 2022 in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters. The key audit matters in relation to the parent company only financial statements for the year ended December 31, 2023 are outlined as follows:

Cut-off risk error of revenue recognition

Description

Refer to Note 4(24) for accounting policy on revenue recognition. The Company is primarily engaged in export and offers different credit terms to their customers. The credit terms for some customers are upon delivery to a specific location and the timing for transferring the control of goods is based on the customer confirmation documents. Given that the revenue recognition process relies on manual processes and the large volume of daily sales transactions which are material to the financial statements, we thus consider sales cut-off as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- 1. Assessed the reasonableness of the sales recognition accounting policy.
- 2. Understood and tested the design and effectiveness of relevant internal controls when recognising the sales revenue.
- 3. Sampled delivery orders and customer confirmation documents during a certain period before and after the balance sheet date to ensure the accuracy of cut-off of sales revenue.

Assessment of allowance for inventory valuation losses

Description

Refer to Note 4(11) for accounting policies on inventory, Note 5 for significant accounting estimates and assumptions of inventory, and Note 6(4) for details of allowance for inventory valuation losses.

The Company manufactures and sells thick and thin film passive components products. Due to the competitive market in the industry and the fluctuating prices, there is a higher risk of inventory losing value or becoming obsolete. The inventories are stated at the lower of cost and net realisable value and the possible losses arising from aged and

obsolete inventories are also assessed. Given that the evaluation on the aged and obsolete inventories involves subjective judgement which results in estimation uncertainty and the impact of aged inventories and allowance for inventory valuation losses are material to the financial statements, we thus consider assessment of allowance for inventory valuation losses as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- 1. Understood and assessed the reasonableness of allowance for inventory valuation losses policy including the historical sources of inventory clearance process.
- 2. Obtained the inventory assessment report prepared by the management and checked the completeness of the information on the inventory aging report.
- 3. Verified the accuracy of the intervals and relevant information used on the inventory aging report, ensured that the allowance loss valuation and the provision policy are consistently applied and further assessed the reasonableness of the estimations of allowance for inventory valuation losses.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the Audit Committee, are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements

as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the

- underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Bai, Shu-Chien	Liu, Chien-Yu
For and on behalf of PricewaterhouseCoopers.	, Taiwan
March 8, 2024	

The accompanying parent company only financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying parent company only financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

VIKING TECH CORPORATION

NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

(EXPRESSED IN THOUSANDS OF NEW TAIWAN DOLLARS, EXCEPT AS OTHERWISE INDICATED)

1. HISTORY AND ORGANISATION

VIKING TECH CORPORATION (the "Company") was incorporated as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.). The Company is primarily engaged in research and development, manufacturing and sale of thick and thin film passive components.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These parent company only financial statements were authorised for issuance by the Board of Directors on March 8, 2024.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") that came into effect as endorsed by the Financial Supervisory Commission ("FSC").

New standards, interpretations and amendments endorsed by FSC and became effective from 2023 are as follows:

	Effective date by
	International
	Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities	January 1, 2023
arising from a single transaction'	
Amendments to IAS 12, 'International tax reform - pillar two model rules'	May 23, 2023

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:

	Effective date by
	International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
Amendments to IAS 1, 'Classification of liabilities as current or non-	January 1, 2024
current'	
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024
Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'	January 1, 2024

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

	Effective date by
	International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets	To be determined by
between an investor and its associate or joint venture'	International Accounting
	Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 –	January 1, 2023
comparative information'	
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(–)Compliance statement

The parent company only financial statements of the Company have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

(二)Basis of preparation

- A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:
 - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Financial assets at fair value through other comprehensive income.
 - (c) Liabilities on cash-settled share-based payment arrangements measured at fair value.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant. Information is provided in Note 5.

(三)Foreign currency translation

The parent company only financial statements are presented in New Taiwan dollars, which is the Company's functional currency.

- A. Foreign currency transactions and balances
 - (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
 - (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
 - (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
 - (d) Except for the foreign exchanges gains and losses relating to borrowings as well as cash and cash equivalents are presented in the statement of comprehensive income within 'other income and finance costs', others are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

- (a) The operating results and financial position of all the company entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognised in other comprehensive income.
- (b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation.

(四) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(五) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(六) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using settlement date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Company recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

(七) Financial assets at amortised cost

- A. Financial assets at amortised cost are those that meet all of the following criteria:
 - (a) The objective of the Company's business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using settlement date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.
- D. The Company's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(\(\triangle\)) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(九) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortised cost, at each reporting date, the Company recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognises the impairment provision for lifetime ECLs.

(+) Derecognition of financial assets

The Company derecognises a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Company has not retained control of the financial asset.

(+-)Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(+ =) Investments accounted for using equity method / associates

- A. Subsidiaries are all entities controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- B. Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Company are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- C. The Company's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- D. In accordance withRegulations Governing the Preparation of Financial Reports by Securities Issuers, the profit or loss and other comprehensive income or loss presented on the parent company only financial statements are consistent with those presented on the consolidated financial statements. In addition, owner's equity presented on the parent company only financial statements is consistent with equity attributable to owners of parent presented on the consolidated financial statements.

(十三)Property, plant and equipment

A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during

the construction period are capitalised.

- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures $20 \sim 50$ years Machinery and equipment $2 \sim 12$ years Other equipment $2 \sim 10$ years

- (十四) Leasing arrangements (lessee) right-of-use assets/ lease liabilities
 - A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
 - B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate.

Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable;
- (b) Variable lease payments that depend on an index or a rate;
- (c) Amounts expected to be payable by the lessee under residual value guarantees;
- (d) The exercise price of a purchase option, if the lessee is reasonably certain to exercise that option; and
- (e) Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The Company subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
 - (a) The amount of the initial measurement of lease liability;
 - (b) Any lease payments made at or before the commencement date;
 - (c) Any initial direct costs incurred by the lessee; and
 - (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(十五)Intangible assets

Computer software expenditures are stated at cost and amortized on a straight-line basis over its estimated useful life of 2 to 5 years.

(十六)Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(+ セ)<u>Borrowings</u>

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

$(+ \land)$ Notes and accounts payable

Notes and accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. However, short-term accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(+ 九) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(-+)Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expenses in that period when the employees render service.

B. Pensions

Defined contribution plans

For defined contribution plans, the Company has no legal or constructive obligation to make additional contributions after a fixed amount is contributed to a public or privately managed and independent pension fund. The contributions are recognised as pension expenses when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognised as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequent actual distributed amounts is accounted for as changes in estimates.

(=+-)Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and dedutible temporary differences. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Company and

it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.

(-+-)Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(二十三)Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(二十四)Revenue recognition

Sales of goods

- A. The Company manufactures and sells thick and thin film passive components. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied.
- B. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF</u> ASSUMPTION UNCERTAINTY

The preparation of these financial statements requires management to make critical judgements in applying the Company accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors.

Such assumptions and estimates have a significant risk of causing a material

adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Company must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technological innovation, the Company evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of December 31, 2023, the carrying amount of inventories was \$715,671.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(-) Cash and cash equivalents

	Decen	nber 31, 2023	December 31, 2022		
Cash on hand and revolving funds	\$	1,036	\$	1,031	
Checking accounts and demand deposits		439,549		528,054	
	\$	440,585	\$	529,085	

- A. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. Cash and cash equivalents pledged to banks as collateral were classified as other current financial assets. Information is provided in Note 8.

(=) Financial assets at fair value through profit or loss

Items	Decei	mber 31, 2023	Dec	ember 31, 2022
Current items:				
Financial assets mandatorily measured at fair				
value through profit or loss				
Beneficiary certificates	\$	298,920	\$	411,326
Valuation adjustment	(61)	(1,502)
Total	\$	298,859	\$	409,824

- A. The Company recognised net gain(loss) of \$6,624 and (\$1,997) for the years ended December 31, 2023 and 2022, respectively.
- B. The Company has no financial assets at fair value through profit or loss pledged to others.

(≡) Notes and accounts receivable

	Decem	nber 31, 2023	December 31, 2022		
Notes receivable	\$	1,752	\$	1,753	
Less: Allowance for uncollectible accounts		_			
	\$	1,752	\$	1,753	
Accounts receivable	\$	583,595	\$	618,121	
Less: Allowance for uncollectible accounts	(4,928)	(5,203)	
	\$	578,667	\$	612,918	

A. The ageing analysis of accounts receivable that was past due but not impaired is as follows:

	Decen	December 31, 2022		
Not past due	\$	576,925	\$	611,308
Up to 60 days		3,414		2,210
61 to 90 days		14		1,472
91 to 180 days		110		-
Over 180 days		4,884		4,884
	\$	585,347	\$	619,874

The above ageing analysis was based on past due date.

- B. As at December 31, 2023 and 2022, and January 1, 2022, the balances of receivables (including notes receivable) from contracts with customers amounted to \$585,347, \$619,874, and \$839,940, respectively.
- C. The Company does not hold any collateral as security.
- D. As at December 31, 2023 and 2022, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Company's notes receivable were \$1,752 and \$1,753, and accounts receivable were \$578,667 and \$612,918, respectively.
- E. Information relating to credit risk is provided in Note 12(2).

A. The significant components of buildings are depreciated over 50 years.

B. Information about the property, plant and equipment that were pledged to others as collateral is provided in Note 8.

(七)<u>Leasing arrangements - lessee</u>

- A. The Company leases various assets including land, buildings and business vehicles. Rental contracts are typically made for periods of 2 to 10 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.
- B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	Decem	ber 31, 2023	December 31, 2022	
	Carrying amount		Carrying amount	
Land	\$	1,408	\$	2,150
Buildings		13,102		177

(+-)Pensions

Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

The pension costs under the defined contribution pension plans of the Company for the years ended December 31, 2023 and 2022 were \$20,630 and \$19,991, respectively.

(+ =)Share capital

As of December 31, 2023, the Company's authorised capital was \$1,500,000, consisting of 150 million shares of ordinary stock (including 15 million shares reserved for employee stock options and convertible bonds issued by the Company), and the amount issued was 1,173,408 thousand shares with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

There was no change in the number of shares for the years ended December 31, 2023 and 2022. Details of the balances at the end of the year are as follows:

		Unit: in thousand shares
	2023	2022
At January 1 / at December 31	117,341	117,341

(十三)Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(十四)<u>Retained earnings</u>

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall offset prior years' operating losses. The remaining amount shall be set aside as legal reserve in accordance with the regulations and the special reserve shall be set aside or reversed, if necessary. The remainder along with the previous years' unappropriated retained earnings, if any, to be appropriated shall be proposed by the Board of Directors at its meeting and then resolved by the stockholders at their meeting.
- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the balance of the reserve exceeds 25% of the Company's paid-in capital.
- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- D. Under the Company's Articles of Incorporation, dividends to the shareholders can be distributed in cash or share dividends. However, the cash dividends shall not be less than 20% of the total distribution.
- E. (a) The appropriations of 2022 and 2021 earnings had been resolved at the Board of Directors' and stockholders' meeting on June 27, 2023 and June 27, 2022, respectively. Details are summarized below:

		2022			2021			
		Dividends per share (in					vidends per share (in	
		Amount	dollars)		Amount		dollars)	
Legal reserve	\$	58,545		\$	47,452			
Special reserve	(6,186)			2,143			
Cash dividends		305,086	\$ 2.60		258,149	\$	2.20	
Total	\$	357,445		\$	307,744			

The appropriations of 2022 and 2021 earnings are in agreement with the Board of Directors' proposals on February 17, 2023 and February 25, 2022, respectively.

(b)The appropriations of 2023 earnings had been resolved at the Board of Directors'and stockholders'meeting on March 8, 2024. Details are summarized below:

		2023
	 Amount	Dividends per share (in dollars)
Legal reserve	\$ 26,182	
Special reserve	6,063	
Cash dividends	 140,809	\$ 1.20
Total	\$ 173,054	

As of March 8, 2024, the appropriations of 2023 earnings had not been approved by the stockholders.

Wages and salaries	\$	531,000	\$	601,819
Labour and health insurance fees		54,824		52,440
Pension costs		20,630		19,991
Other personnel expenses		26,581		24,574
	\$	633,035	\$	698,824

A. In accordance with the Articles of Incorporation of the Company, a ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall be 10% for employees' compensation and shall be 5% for directors' and supervisors' remuneration. However, annual net income should first be reserved to offset the Company's accumulated deficit prior to the distribution of compensation and remuneration.

B. For the years ended December 31, 2023 and 2022, employees' compensation was accrued at \$35,974 and \$84,588, respectively; while directors' and supervisors' remuneration was accrued at \$17,987 and \$42,294, respectively. The aforementioned amounts were recognised in salary expenses.

The employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on 10% and 5% of distributable profit of current year.

Employees' compensation and directors' remuneration of 2023 and 2022 as resolved by the Board of Directors were in agreement with those amounts recognised in the 2023 and 2022 financial statements, respectively.

Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(二十三)Income tax

- A. Income tax expense
 - (a) Components of income tax expense:

(四) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital.

During the year ended December 31, 2023 the Company's strategy, which was unchanged from 2022, was to maintain the gearing ratio under 50%.

B. Financial risk management policies

- (a) The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.
- (b) Risk management is carried out by a finance department (Company finance) under policies approved by the Board of Directors. Company finance identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Company operates internationally and is exposed to foreign exchange risk arising from various currencies, primarily with respect to the USD and RMB. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.
- ii. Management has set up a policy to manage its foreign exchange risk against their functional currency. The company subsidiaries are required to hedge their entire foreign exchange risk exposure with the Company treasury. Foreign exchange risk arises when

- future commercial transactions or recognized assets or liabilities are denominated in a currency that is not the entity's functional currency.
- iii. The Company's businesses involve some non-functional currency operations. The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2023							
	Foreign							
	cur	rency		Book value

Price risk

- i. The Company's equity securities, which are exposed to price risk, are the held financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio.
- ii. The Company's investments in equity securities comprise domestic and foreign stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other components of equity for the years ended December 31, 2023 and 2022 would have increased/decreased by \$ 2,989 and \$4,098, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- iv. The Company's interest rate risk arises from short-term and long-term borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rates. During the years ended December 31, 2023 and 2022, the Group's borrowings at variable rate were denominated in the New Taiwan Dollars (NTD) and United States Dollars (USD).
- v. Based on the simulations performed, the impact on post-tax profit of a 1% shift would be a maximum increase or decrease of \$558 and \$751 for the years ended December 31, 2023 and 2022, respectively. The simulation is done on a quarterly basis to verify that the maximum loss potential is within the limit given by the management.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortised cost, at fair value through profit or loss and at fair value through other comprehensive income.
- ii. The Company manages their credit risk taking into consideration the entire Company's concern. According to the Company's credit policy, each local entity in the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- iii. The Company adopts the assumptions under IFRS 9, the default occurs when the contract payments are past due over 90 days.
- iv. The Company adopts following assumptions under IFRS 9 to assess whether there has

- been a significant increase in credit risk on that instrument since initial recognition: If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- v. The Company classifies customers'accounts receivable in accordance with credit rating of customer. The Company applies the modified approach using loss rate methodology to estimate expected credit loss.
- vi. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
 - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
 - (ii) The disappearance of an active market for that financial asset because of financial difficulties;
 - (iii) Default or delinquency in interest or principal repayments;
 - (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.
- vii. The Company wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Company will continue executing the recourse procedures to secure their rights.
- viii. The Company used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. As at December 31, 2023 and 2022, the loss rate methodology is as follows:

			61~90	91~180	Over 180	
		60 days	days past	days past	days past	
	Not past due	past due	due	due	due	Total
December 31, 2023						
Expected loss rate	0%	0.25%	20%	30%	100%	
Total book value	\$ 576,925	\$ 3,414	\$ 14	\$ 110	\$ 4,884	\$ 585,347
Loss allowance	-	(8)	(3)	(33)	(4,884)	(4,928)
			61~90	91~180	Over 180	
		60 days	days past	days past	days past	
	Not past due	past due	due	due	due	Total
December 31, 2022						
Expected loss rate	0%	1.12%	20%	0%	100%	
Total book value	\$ 611,308	\$ 2,210	\$ 1,472	\$ -	\$ 4,884	\$ 619,874

ix. Movements in relation to the Company applying the simplified approach to provide loss allowance for accounts and notes receivable are as follows:

	December 31, 2023							
	Accounts	Notes receivable						
At January 1	\$	5,203	\$ -					
Provision for impairment	(275)						
At December 31	\$	4,928	\$ -					
		December						
	Accounts	s receivable	Notes receivable					
At January 1	\$	4,987	\$ -					
Provision for impairment		216						
At December 31	\$	5,203	\$ -					

(c) Liquidity risk

- i. Cash flow forecasting is performed by the management of the Company and aggregated by Company treasury. Company treasury monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Company's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets and, if applicable external regulatory or legal requirements, for example, currency restrictions.
- ii. Surplus cash over and above balance required for company is invested in interest bearing current accounts, time deposits, money market deposits and marketable securities. The chosen instruments have appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts.
- iii. The Group has the following undrawn borrowing facilities:

	Decer	nber 31, 2023	Dec	cember 31, 2022
Floating rate		1.73%~2.23%		1.48%~2.11%
Expiring within one year	\$	430,000	\$	575,000

iv. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative financial liabilities:

			Be	tween 61	Be	etween 91	Be	tween 181			
December 31,	Le	ss then 60	day	ys and 90	day	rs and 180	day	ys and 360	C	Over 361	
2023		days		days		days		days		days	Total
Accounts payable (including related parties)	\$	100,946	\$	32,627	\$	23,562	\$	-	\$	-	\$ 157,135
Other payables (including related parties)		165,778		17,365		6,319		54,990		-	244,452
Lease liability Long-term		864		432		1,295		2,482		12,208	17,281
borrowings (including current portion)		3,453		1,727		5,180		10,359		51,385	72,104

Non-derivative financial liabilities:

December 31, 2022	Less then	60	days	veen 61 and 90 ays	 etween 91 ys and 180 days	 etween 181 ys and 360 days	Over 360)	Total
Short-term borrowings	\$	13	\$	6	\$ 19	\$ 5,010	\$	_	\$ 5,048
Accounts payable (including related parties)	94,7	57		34,673	18,780	-		_	148,220
Other payables (including related									
parties)	185,1	93		26,955	6,305	128,408		-	346,861

(including current portion)	3,4	40		1,720	5,159	10,318	72,06	59	92,706

(六) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Company's investment in beneficiary certificates is included in Level 1.
 - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
 - Level 3: Unobservable inputs for the asset or liability.

B. Financial instruments not measured at fair value

The carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, short-term borrowings, notes payable, accounts payable and other payables are approximate to their fair values.

- C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:
 - (a) The Company's financial assets and liabilities measured at fair value are as follows:

December 31, 2023	Level 1	Level 2	Level 3	Total
Assets:				
Recurring fair value				
measurements				
Financial assets at fair value				
through profit or loss				
Equity securities	\$ 298,859	\$ -	\$ -	\$ 298,859
December 31, 2022	Level 1	Level 2	Level 3	Total
Assets:				
Recurring fair value				
<u>measurements</u>				
Financial assets at fair value				
through profit or loss				
Equity securities	\$ 409,824	\$ -	\$ -	\$ 409,824

(b) The methods and assumptions the Company used to measure fair value are as follows:

Market quoted price Open-end fund
Net asset value

- D. For the years ended December 31, 2023 and 2022, there was no transfer between Level 1 and Level 2.
- E. For the years ended December 31, 2023 and 2022, there was no transfer into or out from Level 3.

13. SUPPLEMENTARY DISCLOSURES

- (1) Significant transactions information
 - A. Loans to others: None.
 - B. Provision of endorsements and guarantees to others: None.
 - C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 1.
 - D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: Please refer to table 2.
 - E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.

- F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 3.
- H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: Please refer to table 4.
- I. Trading in derivative instruments undertaken during the reporting periods: None.
- J. Significant inter-company transactions during the reporting periods: Please refer to table 5.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 6.

(3) Information on investments in Mainland China

- A. Basic information: Please refer to table 7.
- B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Please refer to table 8.
- (4) Information on major shareholders

Please refer to table 9.

14. SEGMENT INFORMATION

Not applicable.

- Note 1: The paid-in capital was translated into NTD from USD 7,490 at the exchange rate on reporting date.
- Note 2: Investment methods are classified into the following four categories; fill in the number of category each case belongs to:
 - (1) Invested in the investee in Mainland China through remitting to the third area.
 - (2)Re-investment of China companies through the establishment of a third-region investment company.
 - (3) Through investing in an existing company in the third area, which then invested in the investee in Mainland China.
 - (4)Others.
- Note 3: Viking Tech Electronics Limited acquired a subsidiary accounted for using equity method, Viking Tech Wuri TMTEC Electronics Co., Ltd., from Taitec Electronics (Samos) Co., Ltd. on July 1, 2009. The original investments approved by the Investment Commission of MOEA were USD 6,000 thousand. The acquires became a subsidiary of the Company thereafter.
- Note 4: Viking Electronics (WUXI) CO., LTD. became an indirect investee of the Company after surviving the marger with Viking Tech Ward TMTEC Electronics Co., Ltd. on the marger effective date. The original investments by Viking Tech Ward TMTEC Electronics Co., Ltd. approved by the Investment Commission of MOEA were USD 6.000 thousand.
- Note 5: Recognition methods of investment income (loss) are classified into two categories as follows:
 - (1)It should be indicated if the company is in the process of incorporation and have no profit or loss yet.
 - (2) Indicate the basis for investment income (loss) recognition in the number of one of the following three categories:
 - A.The financial statements that are audited and attested by international accounting firm which has cooperative relationship with accounting firm in R.O.C.
 - B.The financial statements that are audited and attested by R.O.C. parent company's CPA.
 - C.Others.
- Note 6: In December 2022, Viking Tech Electronics Limited increased its investments by USD 1,490 thousand in a subsidiary accounted for using equity method.
- Note 7: In August 2023, Viking Electronics (WUXI) CO., LTD. increased its investments by RMB 2,000 thousand in Viking Electronics (Nantong) CO., LTD.
